

PUBLIC PARTICIPATION PLAN

FISCAL YEAR

'20

APPROVED: November 20, 2020

Preparation of this report has been financed through funds received from the U.S. Department of Transportation, Federal Transit Administration, Federal Highway Administration, and by the dues-paying members of the Strafford Regional Planning Commission.

The Role of the Metropolitan Planning Organization

Strafford Metropolitan Planning Organization (SMPO) is a subdivision of Strafford Regional Planning Commission and carries out all transportation planning efforts.

Strafford MPO staff work closely with the NH Department of Transportation to implement data collection programs, assist and advocate for local transit agencies and municipal projects, and create long-range plans which address safety and quality of life.

INTRODUCTION

The 2005 Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) established the requirement for a public participation component of metropolitan transportation planning processes to ensure fair and equitable public input opportunities in transportation planning. SAFETEA-LU required implementation of a public participation process throughout transportation plans and programs and required consideration of all modes of transportation. The legislation used the “continuing, cooperative and, comprehensive” (3Cs) approach to transportation planning. In addition, SAFETEA-LU emphasized broadening public participation to include stakeholders who had not been involved previously.

These practices have also been required in subsequent transportation legislation, including the Moving Ahead for Progress in the 21st Century Act (MAP-21) and the most recent federal transportation authorization bill, Fixing America’s Surface Transportation Act (FAST).

The Public Participation Plan outlines the strategy and goals of the Strafford Metropolitan Planning Organization (Strafford MPO) for engaging members of the public in the Strafford region and ensuring their fair and equitable representation. This plan is reviewed as part of the 4-year certification process conducted by the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) to ensure the planning process is fully accessible to the public.

Strafford MPO and Public Participation Plan

Strafford MPO is the metropolitan planning organization for southeastern New Hampshire and includes 18 communities (see the map on the next page).

The Strafford Public Participation Plan documents the actions to be carried out by Strafford MPO to ensure that opportunities exist for the public to be involved in transportation planning activities, pursuant to Title 23 CFR 450.316 of Statewide Planning; Metropolitan Planning and Criteria and Procedures for Determining Conformity to State or Federal Implementation Plans of Transportation Plans, Programs and Projects; and Statewide Transportation Planning Rules. The Strafford Public Participation Plan policies have been adopted by the Strafford MPO Policy Committee.

Public participation is essential for shaping the transportation planning activities of Strafford MPO. This document will serve as the organization’s public participation guide for implementing transportation policy and conducting project planning and development.

A public participation plan is a document that:

defines a process for providing individuals, affected public agencies, representatives of public transportation employees, public ports, freight shippers, providers of freight transportation services, private providers of transportation (including intercity bus operators, employer-based commuting programs, such as carpool program, vanpool program, transit benefit program, parking cash-out program, shuttle program, or telework program), representatives of users of public transportation, representatives of users of pedestrian walkways and bicycle transportation facilities, representatives of the disabled, and other interested parties with reasonable opportunities to be involved in the metropolitan transportation planning process. (23 CFR 450.316(a))

Strafford Metropolitan Planning Organization

-  SMPO
-  NH Municipal Boundaries
-  State Highway

WHAT IS THE PUBLIC PARTICIPATION PLAN?

In addition, the plan lays out the outreach techniques Strafford MPO uses to provide information and opportunities for feedback from the public (See Appendix A).

Transportation projects help determine the shape and character of a region. The transportation system and transportation policies play a major role in determining where people live, how they get to work, what modes of travel they choose, and where businesses develop. Transportation also plays a significant role in the environmental quality and livability of an area.

Public involvement creates opportunities for the public to be informed about transportation decisions being made in the region and across the state. This is particularly true in situations where certain populations will be directly affected by a transportation decision. Public involvement enables a MPO to identify issues, priorities, needs, and other factors that may affect a transportation decision.

Not only is it important for an agency to understand a community's values, it is equally important for the community to understand the constraints associated with planning for transportation projects. When members of the public are involved in the planning process, they gain insight into the role of government, including limitations on development such as lack of revenue.

Strafford MPO aims to solicit comments and engage the public through the processes outlined in this document and the plan identifies a variety of new virtual and traditional engagement techniques. These include in-person engagement, social media, remote access to virtual platforms, targeted stakeholder interviews, and online survey and meeting options that can supplement and not replace traditional survey and meeting opportunities.

Public Participation Policy

The Fixing America's Surface Transportation Act (FAST) builds on the foundations of transportation planning provided in Moving Ahead for Progress in the 21st Century Act (MAP-21) (P.L. 112-141), SAFETEA-LU, and other transportation authorizing statutes preceding it. The statute requires a public participation component for the metropolitan transportation planning process.

The metropolitan planning process must "include a proactive public involvement process that provides complete information, timely public notice, full public access to key decisions, and early and continuing involvement of the public in developing plans." (23 CFR part 450; 49 CFR part 613)

Additional metropolitan planning organization public participation requirements and criteria are presented in Appendix A, Federal Regulation on MPO Public Participation Process.

Review of Public Participation Process

Strafford MPO's planning processes, including public participation practices, are reviewed every four years by FHWA/FTA. Strafford MPO was reviewed in 2014 and again in 2018. In the past, Strafford MPO completed a self-assessment to monitor public participation processes by answering the following questions:

- What was the success of specific strategies in attracting the public and associated comments?
- What level of public input was received for various planning products?
- Was public input considered by decision-makers?
- Should any new strategies or adjustments be considered in the following year?
- Are any changes or amendments necessary to the Public Participation Plan?

Stafford MPO staff conducting outreach for the Level of Traffic Stress project at the Durham Farmers Market in 2019.

Strafford MPO also maintains this Public Participation Plan document on a four-year cycle and tracks progress via performance measures and indicators.

Requirements Addressing Low-Income Communities and Minority Communities

Strafford MPO works to ensure that all citizens in the region are given the opportunity to participate in transportation planning processes. The Strafford Regional Planning Commission's Assurance of Non-Discrimination states:

The Strafford Regional Planning Commission does not discriminate in its programs, activities, or employment against individuals based on race, color, religion, creed, age, sex, sexual orientation, or national origin.

SRPC provides, upon request, reasonable accommodations for people with disabilities, including impaired vision and hearing. It is requested that anyone with a need for accommodations contact the Commission prior to meetings and other activities where assistance will be needed.

Title VI

These practices are in line with Title VI/Civil Rights Act of 1964, which states:

No person in the United States shall, on the grounds of race, color or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (Title VI of the Civil Rights Act [42 USC 2000d])

Federal Actions to Address Environmental Justice in Minority and Low-Income Populations, (Executive Order 12898), reinforced the requirements of Title VI of the Civil Rights Act of 1964. It was signed by President Clinton on February 11, 1994, and was published on February 16, 1994 in the Federal Register, Vol. 59, No. 32. Executive Order 12898 and the accompanying memorandum focus federal attention on the environmental and human health conditions in minority and low-income communities.

Strafford MPO's practices follow environmental justice protocols. Environmental justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

On April 15, 1997, U.S. DOT issued its Final Order to Address Environmental Justice in Minority Populations and Low-Income Populations. Among other provisions, the order requires programming and planning activities to:

- Include explicit consideration of the effects of transportation decisions on minority and low-income populations.
- Provide meaningful opportunities for public involvement by members of minority and low-income populations.
- Gather, where relevant, appropriate, and practical, demographic information (race, color, national origin, and income level) on the populations served or affected by transportation decisions.
- Minimize or mitigate any adverse impact on minority or low-income populations.

Requirements Addressing Populations with Disabilities

The Americans with Disabilities Act (ADA) of 1990 includes requirements regarding the involvement of persons with disabilities in the development and improvement of transportation services. The ADA includes provisions that ensure those with disabilities have accommodations included in transportation facility development, are able to access the sites where public participation activities occur, and are guaranteed access to information available at those forums.

Strafford MPO's public participation methods to address the ADA are described in Ensuring Equity in Engagement (See Appendix F).

State Mandates

In New Hampshire, there are certain laws for public access that relate to the planning process. Right to Know legislation conveyed in RSA 91-A:1 general preamble states that:

Openness in the conduct of public business is essential to a democratic society. The purpose of this chapter is to ensure both the greatest possible public access to the actions, discussions and records of all public bodies, and their accountability to the people.

Governmental records include all writings made, maintained, or kept by the state or any agency, institution, or political subdivision for use in the exercise of functions required or authorized by law or administrative rule, or involving the receipt or expenditure of public funds. Strafford MPO's procedures for distributing information in accordance with the public records law of New Hampshire are discussed in the following sections.

NH RSA 91-A:2 enables governmental entities to hold electronic or telephonic meetings, without a quorum physically present, under emergency situations where there is imperative businesses to be conducted and as determined by the chair.

Strafford MPO and Public Participation Strategies

Strafford MPO's practice is to adopt strategies that enable the organization to meet state and federal policies for public participation procedures and encourage a robust public participation process. The contents of this plan provide the framework in which Strafford MPO will meet the state and federal requirements for public participation and outreach.

Strafford MPO Public Participation Goals

Transportation decision-makers must consider the concerns of the public and users who may be affected by a proposed project. Strafford MPO's goals incorporate the outreach techniques in 23 CFR 450.316(a) (See Appendix A) and aim to:

1. Educate and inform the public about transportation planning processes.
2. Solicit public input to identify transportation-related needs, desires, issues, and concerns.
3. Advocate on behalf of regional communities, acting as a conduit between municipalities and statewide/federal entities.
4. Foster collaboration between citizens, municipalities, and statewide organizations by providing forums for input and discussion.

Strafford MPO INVOLVEMENT: Go-To Strategies

- Public hearings
- Advisory Committees
- Public meetings and workshops
- Presentations with special interest groups
- Forums that allow for public comments
- Polls, surveys, focus groups, and interviews
- Social Media

Strengthening public awareness of the services provided by Strafford MPO and sharing information developed through transportation planning activities are main points of emphasis for the organization. The development of required federal documents remains a major component of the Strafford MPO work program, and these documents are one of the primary tools for informing the public about transportation planning in the region. However, data collection and analysis are taking on a larger role in the day-to-day activities at Strafford MPO.

Strafford MPO creates numerous planning documents to track regional transportation activities. Most plans provide a framework for achieving planning goals outlined in the documents or by federal regulations. Topics can range from reporting four years of federally funded transportation projects, to laying out a 25+ year vision for regional transportation development.

GOAL #1

Educate and inform the public about transportation planning processes

Partners

- Provide partners with information relative to funding programs that could be beneficial.
- Educate partners on the regional transportation planning processes via presentations, meetings, outreach materials, and reports,
- Serve as a conduit between state and federal agencies to disseminate information to partners relative to transportation planning.
- Provide information about meetings and public hearings to provide opportunities for partners to participate in the planning process.
- Create informational materials for events, projects, programs, and other transportation planning.
- Communicate best practices for transportation planning to partners, the public, and decision-makers.

Public

- Provide timely, adequate, and understandable information to the public.
- Educate the public on the regional transportation planning processes via presentations, meetings, outreach materials, and reports.
- Explain the MPO structure including committees & tasks of the planning organization.
- Provide information about meetings and public hearings to provide opportunities for the public to participate in the planning process.
- Create informational materials for events, projects, programs, and other transportation planning.
- Communicate best practices for transportation planning to the public and decision-makers.

GOAL #2

Solicit public input to identify transportation-Related needs, desires, issues, and concerns

Partners

- Emphasize participation from partners early and often for planning efforts, key decision points, & when final draft products are released.
- Ensure availability of draft documents so that partners may share public comments and express concerns during the planning process.
- Schedule and organize meetings for partners to provide comment opportunities and facilitate information sharing.

Public

- Emphasize public participation early and often particularly at key decision points and release of public review documents.
- Ensure availability of draft documents to citizens to share public comments and concerns during the planning process. These comments will be considered and documented.
- Schedule and organize meetings for public comment opportunities and information sharing

GOAL #3

Advocate on behalf of regional partners, acting as a conduit between municipalities and statewide/federal entities.

Partners

- Devise transportation plans, programs, and projects that reflect local and regional priorities and needs.
- Represent partner concerns to state agencies such as the New Hampshire Department of Transportation.
-

Public

- Devise transportation plans, programs, and projects that reflect local and regional priorities and needs.
- Ensure availability of draft documents to citizens to share their comments and express concerns during the planning process. These comments will be considered and documented.

GOAL #4

Foster collaboration between citizens, partners, and statewide organizations through providing forums for input and discussion.

Partners

- Provide opportunities for partners to voice their concerns to state and federal agencies at meetings and other events for public comment.
- Facilitate opportunities for teamwork among regional communities, organizations, and entities.
- Encourage the integration of transportation planning with other areas of planning (economic development) via linked opportunities.

Public

- Provide opportunities for citizens to voice their concerns to state and federal agencies at meetings and other opportunities for public comment.

INFORMING THE PUBLIC

Along with creating and maintaining required planning documents, Strafford MPO is collecting, standardizing, analyzing, and sharing a variety of transportation data. Finding ways to make data more useful and accessible to communities, regional organizations, and the public is a primary focus of Strafford MPO.

Data is playing a more significant role in everyday life. While data once was collected and stored, often for limited purposes, today's technology makes it possible to widely distribute data. Finding ways to efficiently and effectively communicate and share data using online tools allows others to find meaningful uses for data that can go beyond the original purpose for its collection.

Documents

Documents remain an important way Strafford MPO communicates with the public. Much of the work Strafford MPO does in the region can be understood by reading the transportation documents created by the organization, which are available online (www.strafford.org) and in our office.

Document Update Schedule

Each document prepared by the Strafford MPO is updated on a set schedule, or as needed. The following chart details the schedule for updates.

Performance Measures Reporting

Purpose

The Performance Measures annual report allows transportation planning metrics to be tracked, rated, and

Engagement Opportunity

The public can attend an MPO Policy or Technical Advisory Committee meeting to learn about the process. They also can review reports on the SRPC website.

Annual Listing of Obligated Projects

Purpose

The Annual Listing of Obligated Projects is a requirement of the federal government. Each year, MPOs report on the total amount of federal funds that were obligated during the preceding fiscal year

Engagement Opportunity

The public can attend an MPO Policy or Technical Advisory Committee meeting to learn about the document.

Purpose

The TIP is a fiscally constrained four-year program of multi-modal transportation projects selected from the state's Ten Year Transportation Improvement Plan. In order to move from the Ten Year Plan into the TIP, projects in the TIP must be fully developed with engineering scopes of work and cost estimates

Engagement Opportunity

There is a public review period that lasts between 10 and 30 days ending with a public hearing. During this time the document is available in the Strafford MPO office, online at www.strafford.org, and at the three city libraries in the region.

Purpose

The projection solicitation process for the Ten Year Plan verifies project priorities submitted through past project solicitation rounds and solicits proposals for new transportation improvement projects.

Engagement Opportunity

There is a public review period that lasts between 10 and 30 days ending with a public hearing. During this time the document is available in the Strafford MPO office, online at www.strafford.org, and at the three city libraries in the region.

Purpose

The UPWP identifies the specific planning priorities and work tasks that the MPO will address during a particular program period.

Engagement Opportunity

There is a public review period of 30 days ending with a public hearing. During this time the document is available in the Strafford MPO office, online at www.strafford.org, and at the three city libraries in the region.

Purpose

The metro plan is a long-range plan with a 20+ year horizon that encourages and promotes the safe and efficient management, operation, and development of surface transportation systems in the region.

Engagement Opportunity

There is a public review period of 30 days ending with a public hearing. During this time the document is available in the Strafford MPO office, online at www.strafford.org, and at the three city libraries in the region.

Purpose

Intelligent Transportation Systems (ITS) are interrelated systems that work together to deliver transportation services. Integration of these systems requires an architecture to illustrate and gain consensus on the approach to be taken by a group of stakeholders regarding their particular systems. An ITS Architecture defines the systems and the interconnections and information exchanges between these systems.

Engagement Opportunity

There is a public review period of 30 days ending with a public hearing. During this time the document is available in the Strafford MPO office, online at www.strafford.org, and at the three city libraries in the region.

Purpose

The public participation plan documents the actions to be carried out to ensure opportunities exist for the public to be involved in transportation planning activities.

Engagement Opportunity

There is a public review period of 45 days ending with a public hearing. During this time the document is available in the Strafford MPO office, online at www.strafford.org, and at the three city libraries in the region.

Purpose

The “Coordinated Plan” identifies the transportation needs of individuals with disabilities, older adults, and people with low incomes. It provides strategies for meeting their needs and prioritizes transportation services for funding and implementation

Engagement Opportunity

There is a public review period of 30 days ending with a public hearing. During this time the document is available in the Strafford MPO office, online at www.trafford.org, and at the three city libraries in the region.

Transportation Related Studies (Route 125 Corridor Study, Park and Ride Toolkit, etc...)

Prospectus

New Hampshire State Plans & Processes (HSIP, Ten Year Plan, other)

As
?
Needed

Purpose

These studies provide information on potential projects that are to be included in the planning documents SRPC creates.

Engagement Opportunity

There are public meetings and potential public review periods depending on the document or report. During public comment periods the document is available in the Strafford MPO office, online at www.trafford.org, and at the three city libraries in the region.

Purpose

The Prospectus defines the roles of various federal, state, and local agencies and entities involved in the transportation planning process. It also documents the interagency agreements that have been entered into between Strafford MPO and other organizations (COAST, NHDOT, etc.).

Engagement Opportunity

There is a public review period of 30 days ending with a public hearing. During this time the document is available in the Strafford MPO office, online at www.trafford.org, and at the three city libraries in the region.

Purpose

Statewide plans encompass planning processes and projects from each of the four MPOs and allow for the expansion of current and future transportation planning in the state.

Engagement Opportunity

There are public meetings and potential public review periods depending on the document or report. During public comment periods the document is available in the Strafford MPO office, online at www.trafford.org, and at the three city libraries in the region.

Public Notices & Public Hearings

As discussed in the previous chapter, public notices and public hearings are long-standing ways Strafford MPO informs and engages the public. Public notices are primarily used to announce public comment periods and public hearings. Notices are distributed widely to ensure the public is well informed about opportunities to participate in reviewing documents, projects, and plans. Strafford MPO maintains a comprehensive mailing list of elected officials, public officials, special interest groups, and others to ensure the widest distribution of documents. A list of interested parties includes the following:

- Boards of Selectmen and Town/City Councils.
- Planning Boards, Traffic Safety Committees, Public Works Officials/ Road Agents.
- Public and private transit and taxi operators, including demand-responsive operators.
- Human Service agencies with low-income, elderly, and disabled clients.
- Representatives from adjoining MPOs.
- Traffic safety and enforcement agencies.
- Chambers of Commerce, economic development organizations.
- Members of the State legislature.
- Appropriate state and federal agencies, including NHDOT, NHDES- Air Resources, NH Department of Business and Economic Affairs, and the Department of Natural and Cultural Resources, Pease Development Authority, FHWA, FTA, FAA, EPA.
- Individuals and groups with a demonstrated interest in transportation issues.
- Major businesses and business and industry associations.
- Schools and colleges.
- Transportation and highway user groups.
- Neighborhood associations.
- Those traditionally underserved by the transportation system.
- Members of the MPO TAC and Policy Committee not otherwise listed.

Public hearings often involve the use of PowerPoint presentations, live GIS mapping, and other visualizations to aid in the communication of information. There is also a citizen's forum on the meeting agenda to ensure all attendees can share their thoughts

Meetings

Strafford MPO meetings are one way the organization informs the public about the organization's planning activities. Approving documents, making planning policy decisions, and receiving feedback take place at meetings, which also allow the organization to educate and communicate about transportation trends, topics, projects, and regulations. Education and information-sharing make meetings an important outreach tool.

Strafford MPO holds monthly Transportation Advisory Committee meetings (every first Friday at 9 a.m.) and Policy Committee meetings (every third Friday at 9 a.m.) at the SRPC offices at 150 Wakefield Street, Suite 12, Rochester, NH 03867 or virtually when it is deemed unsafe by the Governor to hold in-person meetings or the chair declares an emergency in accordance with 91-A:2. In addition to Strafford MPO monthly meetings, staff members attend meetings outside the organization to inform the public about Strafford MPO planning activities and transportation-related topics.

When electronic meetings must be used during emergency conditions, the meeting information is sent out to all affected stakeholders and posted on the SRPC website one week prior to the meeting. In the spring of 2020, the State of New Hampshire began strategic measures in dealing with COVID-19 and a world-wide pandemic. Under these extreme circumstances SRPC shared resources and tips to Commissioners and other stakeholders to ensure continuity of operations and meetings could be held successfully online.

When electronic meetings must be used, a virtual quorum of the members of the body must be accounted for by a roll call. The Chair of SRPC must authorize, with justification, meeting electronically. This statement is read by the chair.

Meetings may be recorded to ensure the meeting minutes are accurate. All voting requires an individual roll call. Minutes are prepared for all meetings of the Technical Advisory and Policy committees. These are available on the Strafford MPO website and upon request from SRPC.

Strafford MPO regularly attends and participates in a number of regional boards that provide the opportunity to reach members of the public. They include the Cooperative Alliance for Seacoast Transportation (COAST) board, the Alliance for Community Transportation (ACT), and CommuteSMART Seacoast.

COAST

The Strafford MPO executive director and regional transportation planner both serve on the COAST board of directors as member and alternate, respectively. The COAST board meets on the third or fourth Wednesday of each month. This group is focused on regional transit in a bi-state, tri-MPO region.

ACT

The regional transportation planner represents Strafford MPO as a member of ACT and of its executive committee. ACT focuses on coordinated human services transportation activities and implementation and works to provide expanded reliable transportation services to disadvantaged populations. The ACT executive committee meets monthly, and the ACT member meetings are held quarterly.

CommuteSMART Seacoast

The Strafford MPO communications and outreach planner co-chairs the advisory board of CommuteSMARTseacoast. This organization is a transportation management association (TMA) whose mission is “to promote smart commuting options—carpooling, vanpooling, transit, bicycling, walking, and teleworking—that will support a livable and economically vibrant greater Seacoast community.” The group meets quarterly and holds annual challenges to engage the community in smart commuting practices.

CommuteSmart NH

The Strafford MPO communications and outreach planner participates on the CommuteSmart NH (CSNH) Coordination Committee. CSNH is dedicated to encouraging and assisting people to choose sustainable transportation options in place of driving single occupancy vehicles. Partners actively support the development and provision of strategies and policies to reduce travel demand across the state including walking, bicycling, carpooling, telecommuting and using public transportation.

The group meets monthly and holds annual challenges to engage the state in smart commuting practices.

Web-Based Outreach

The Strafford MPO Website

The internet is one of the most popular and powerful ways of communicating information today. It can transfer complex ideas and information nearly instantaneously over long distances and on the user’s schedule. The internet also allows more members of the public to participate from home, the office, and just about anywhere in between. This is one of the ways Strafford MPO addresses the challenge of communicating with disadvantaged populations and mobility-challenged individuals.

Content pertinent to Strafford MPO is under the “transportation” tab on the SRPC website at www.strafford.org. The Strafford MPO area of the website contains links to plans, studies, and documents

The website is continually updated to ensure accessibility for all parties. The transportation content on the website includes the following:

- A calendar of meetings, notices, and events.
- Agendas and meeting minutes.
- Links to a range of regional demographic, economic, and traffic data.
- Downloadable versions of planning documents
- GIS content.
- Informational flyers

SRPC is launching a new website in 2020. It will present and organize information in an intuitive, accessible fashion to maximize engagement. Strafford MPO uses ArcGIS online, a mapping tool that allows the MPO to widely share data layers. All of Strafford MPO's standardized maps, including the transportation map, have been converted to ArcOnline and can now be viewed by the public on an interactive interface. A variety of project-specific interactive maps have also been added to our ArcOnline site, such as traffic counts. Additionally, we have created an Open Data Portal within our ArcOnline site that allows the public to download many of our GIS layers as shapefiles, KML's, and excel spreadsheets.

The performance measures project Partnering for Performance NH (PFPNH) launched its own website in September 2017. This website includes the project background and processes, in addition to an annual tracking system for performance measures, which are the outcome of this project. It also hosts templates for its products and instructions for other MPOs working through similar processes to use.

Social Media

SRPC, the Strafford MPO, and the Strafford Economic Development District use Twitter, Facebook and Instagram to stay current on trending planning topics and to provide followers with updated planning information. Each social media platform enables staff members to share surveys, photos, information, publications, and meeting dates;

Strafford MPO uses YouTube to host videos of Transportation Advisory Committee and Policy Committee meetings. Videos of select Strafford meetings have been uploaded, and the organization plans to upload all TAC and Policy Committee meeting videos in FY 2021.

Constant Contact

Strafford MPO relies heavily on email marketing software, Constant Contact. This program enables Strafford MPO to create targeted contact lists of transportation stakeholders and send e-communications such as press releases, surveys, newsletters, weekly updates, meeting materials, and other communications.

This tool is used regularly and integrates with Strafford's social media, enabling e-communications not only to be sent to targeted email contact groups, but also to be posted to Strafford's social media. Posts can even be scheduled so the Strafford MPO audience can receive reminders to check out news they may have missed. The program also offers analytical functions which let the Strafford staff track statistics such as open rates.

Strafford MPO INVOLVEMENT: Get Social with SRPC

Facebook: [@StraffordRegionalPlanningCommission](#)
Twitter: [@StraffordRPC](#)

Instagram: [@strafford.rpc](#)
Constant Contact: Join our contact list [here](#).

Mailing Lists

Mailing list databases help the Strafford staff organize and update its public communications. Using mailing lists, Strafford MPO reaches target audiences with announcements of upcoming events, meeting invitations, newsletters, summary reports, email blasts, and other information about its activities and those of its partners and funders. The Strafford staff updates the mailing lists regularly, and often creates targeted mailing lists for surveys or other project-specific communications. The master mailing list includes approximately 1,000 individuals and organizations.

Blogs & Newsletters

As with the website, Strafford MPO shares a newsletter and blog site with the Strafford Regional Planning Commission. Blogs and newsletters are part of Strafford MPO's public outreach strategy because they are an effective way to distribute planning news and information throughout the region and the state.

The organization produces 36 weekly updates, which include a specific transportation section; 12 newsletters, which include transportation funding opportunities and other information; and close to 12 blog entries annually to ensure regular communication concerning regionally relevant planning topics. Roughly half of these blogs are focused on transportation planning topics.

Other Media Techniques

Visualization Techniques

The use of visualization techniques is a requirement that dates back to the transportation bill SAFETEA-LU. Visualizations use images, maps, graphs, and other visual techniques to help clearly convey information and data. Visualizations are a tool to help communicate information about projects and programs and lead to better decision-making. Examples of visualization techniques used in the Strafford region include the following:

- Maps to better communicate transportation project locations and information to communities in the region (see Figure 3).
- Aerial projections of how alternative land use policy scenarios could affect development and the transportation system in 20 years. Renderings or photo simulations to show how a widened roadway or streetscaping could change the character of a community.
- Flow charts to clearly depict the transportation planning process.
- Graphs to depict transportation project-funding distributions.

Social Media Statistics

625

The combined number of followers SRPC had on Facebook, Instagram, and Twitter in FY 2020.

86

The number of scheduled e-communications SRPC sent out in FY 2020.

477

The total posts on Facebook, Twitter, and Instagram in FY 2020.

4,800

The number of unique visitors to the SRPC website in FY 2020.

818

The current number of contacts SRPC has in its Constant Contact database.

31%

The average open rate for SRPC's e-communications.

Opportunities for Public Participation

Throughout the transportation planning process, there are numerous opportunities for the public to contribute, offer feedback, and inform decision-making. Since the last Public Participation Plan update, Strafford MPO has sought out and embraced new technologies in order to expand the ease and opportunities for public participation.

For all relevant events, meetings, forums, etc., Strafford MPO follows the requirements of the Americans with Disabilities Act to ensure reasonable accommodations are made for those with disabilities. Included in notices and meeting agendas is the following statement:

Reasonable accommodations for people with disabilities are available upon request. Include a description of the accommodation you will need including as much detail as you can provide. Also include a way we can contact you if we need more information. Last minute requests will be accepted but may be impossible to fill. Send an email to srpc@strafford.org or call 603-994-3500.

Strafford MPO **IN ACTION**

SRPC is always looking for innovative ways to get input from the public. Often the best way is to go where people are already gathering. In fall of 2019, SRPC staff assisted NHDOT and a consultant with outreach for development of a statewide bicycle and pedestrian improvement plan. SRPC recommended that an outreach event be held at the Dover farmer's market at Henry Law Park. Over 80 people stopped by while shopping for local produce to give their thoughts and recommendations about improving bicycle and pedestrian accessibility and safety across the state. Farmer's markets and other local events have proven to be a great opportunity to get direct input from regional residents.

In May 2020, Strafford MPO distributed a survey with questions about the region's transportation network. 319 people from around the region responded with input on where they lived and worked and what transportation modes they used. Respondents weighed in on improvements to infrastructure and public transportation, and how to fund transportation needs sustainably. Over half of respondents said they thought it is important for the state to invest in electric vehicle charging infrastructure. Most people said the greatest threat from climate change to transportation is infrastructure impacts from flooding and extreme precipitation. This kind of input is critical for updates to plans and developing projects.

Public Forums, Workshops, & Focus Interviews

Public forums, workshops, and focus groups provide a setting for public discussion. These events are intermittently held by Strafford MPO to gather feedback from the public about a specific topic and will often include multiple sessions to cover different content or capture an evolving view of a topic. Such forums may include open houses/interaction periods, activities to engage public input, formal presentations, brainstorming sessions, small break-out groups, focus interviews, and charettes.

Surveys and Questionnaires

Strafford MPO uses surveys to gather information for major document updates and to help guide general transportation planning. Electronic surveys and our staff's ability to incorporate more information and visualizations through digital media are making it more efficient to collect information in this way. However, digital media are limited in who they reach; one pitfall of using electronic versions of surveys and information-sharing is that some segments of the population can be missed. So, while more costly and time consuming, Strafford MPO maintains a balance between soliciting information electronically and through old-fashioned face-to-face surveys and interviews.

Strafford MPO used surveys when working on the most recent iteration of the Metropolitan Transportation Plan in 2015. This engagement strategy allowed staff to gather input from the public on several issues related to transportation planning. Staff used person to person surveys, and also made use of an application called Quick Tap Survey, which was used in conjunction with iPads.

Outreach Events

Soliciting input from the public can be challenging. A strategy Strafford MPO has adopted to address this challenge is to attend public events throughout the region. Doing so gives our staff additional opportunities to collect input from members of public who may not be able to attend meetings or who are unaware of transportation planning in the region.

Surveys and dialogue are often used at these events to gather information to inform the planning process. Attending public events also provides the organization with an opportunity to introduce our planning activities and educate people on where they can find more information about Strafford MPO's work.

Strafford MPO will often join the Strafford Regional Planning Commission at these events to educate and solicit information about a wide array of planning topics including transportation, land use, economic development, energy, and the environment. This can be valuable for understanding planning impacts from a holistic perspective.

Strafford MPO INVOLVEMENT: Ways to Participate

1. Attend monthly MPO meetings.
2. Provide feedback and comments on documents during public comment periods and at public hearings.
3. Call or email Strafford MPO's Regional Transportation Planning Staff - see staff emails [here](#).
4. Attend a Strafford MPO outreach event or invite us to hold an event in your community - see our calendar [here](#).
5. Join in on public forums, workshops, or focus groups for public discussion.
6. Visit the Strafford MPO office*! We are on the Coast bus route. *Due to the COVID-19 pandemic the office is currently closed, or by appointment only.

Ensuring Equity in Engagement

Ensuring equity in engagement processes is often challenging. Public participation policies, addressed at the beginning of this document, require that all citizens in the region are given the opportunity to participate in transportation planning processes. Legislation such as Title VI and environmental justice laws lay out the requirements and steps Strafford MPO must follow in its planning processes. In addition, the Americans with Disabilities Act (ADA) of 1990 includes requirements regarding the involvement of persons with disabilities in the development and improvement of transportation services.

In adhering to these policies, Strafford MPO aims to create opportunities for wider participation from both usual participants and underserved, underrepresented populations. Reaching out to diverse populations and providing multiple ways in which to participate helps those who are uncomfortable in public meetings to provide their input.

Title VI

In accordance with Title VI (defined on page 8), Strafford MPO has developed several outreach strategies to connect with underrepresented persons and groups, including low-income, minority populations, and those with Limited English Proficiency in order to ensure that decisions that affect them regarding transportation planning are made with their input.

Strategies and related performance measures are reported each year in the Title VI Goals and Accomplishments that is shared on the Strafford Regional Planning Commission website and with the NH Department of Transportation. Some of the goals laid out in this report include the following:

1. Reach out to underrepresented persons and groups, including low-income and minority populations and those with limited proficiency in English to ensure that decisions are made with their input taken into consideration.
2. Ensure that no person is denied access to or participation in Metropolitan Planning Organization programs.
3. Provide notice to the public that the Strafford Regional Planning Commission/Strafford MPO operates its programs and conducts its planning activities subject to the nondiscrimination requirement of Title VI and that members of the public can request additional information regarding the obligations of the SRPC.

Strategies and measures identified in order for Strafford MPO to achieve these goals include the following:

- Inviting up to three speakers to TAC and or Policy Committee meetings to discuss updates to regional and statewide federally funded projects. Presentations will be focused on education and engagement regarding transportation planning and processes. Post videos of these presentations (with permission of the presenters) on the SRPC YouTube channel and include news about such projects on the Strafford MPO home page at least once a quarter. This will help get vital information to individuals who are unable to attend our meetings due to health issues, employment obligations, or for other reasons.
- Reaching out to groups involved with underrepresented populations to (e.g., Dover Adult Learning Center, cultural organizations) get advice on how to best reach these populations.
- Holding the majority of Technical Advisory, Policy, and Commission meetings in locations that are accessible by public transportation.
- Providing ample public notice for meetings, considering that some people might need transportation to meetings. Exploring options for working with COAST and ACT to provide transportation upon request, or scheduling meetings during times that buses run.

Environmental Justice

As explained by the U.S. Environmental Protection Agency (EPA), environmental justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Similar strategies are taken to ensure participation and fair treatment to all citizens and visitors in Strafford MPO region as are explained in the Title VI section, above.

Strafford MPO staff members have completed environmental justice training to ensure that tools and policies are implemented through the organization's planning and outreach processes.

American Disabilities Act

The ADA includes requirements regarding the involvement of persons with disabilities in the development and improvement of transportation services. Strafford MPO does its best to ensure that these individuals are able to participate through attendance at meetings or at outreach events. Strafford MPO holds the majority, if not all, of its public meetings in locations accessible from the COAST bus route.

In addition, SRPC includes the following language on its meeting agendas:

Reasonable accommodations for people with disabilities are available upon request. Include a description of the accommodation you will need including as much detail as you can. Also include a way we can contact you if we need more information. Make your request as early as possible; please allow at least 5 days advance notice. Last minute requests will be accepted, but may be impossible to fill. Please call (603) 994- 3500 or email srpc@strafford.org.

Other Equity Based Strategies

Strafford MPO uses other strategies to ensure residents have an equal opportunity to participate in transportation planning processes. Documents out for public review are brought to accessible community locations such as libraries. In addition, Strafford MPO makes a concerted effort to widen distribution of these public comment drafts to locations such as the Dover Adult Learning Center and Rochester Community Center, among others. Documents use language that is clear and easy to read and using large fonts. All documents are offered virtually as well as physically.

As noted above, most of SRPC's meetings are held at locations accessible by public transportation. Strafford MPO staffers attempt to conduct outreach in locations that are accessible and at events which underrepresented populations may attend.

Strafford MPO continually looks to integrate new techniques, such as polling applications, to gather input from those who may not normally voice their opinions. Recently, Strafford MPO used a polling app, Quick Tap Survey, running on iPads to create surveys that individuals took at different outreach events. This allowed citizens to share input without directly sharing their views with staff members. This approach was found to be an effective means to gather additional information from the public.

Strafford MPO staff also refer to the Equity and Engagement checklist (see Appendix F) created by a subcommittee of the statewide Granite State Future Project of 2012-2015. This is still an effective tool.

MUNICIPAL ENGAGEMENT

Strafford MPO staff work not only to ensure that members of the public have an equitable opportunity to participate, but that municipalities in the region have “early and often” opportunities to participate in all transportation planning processes

Informing Municipalities

Strafford MPO provides municipalities with information through many different channels. The MPO’s extensive contact list includes planning and administrative staff, public works staff, road agents, and other transportation contacts. Strafford MPO uses email to inform municipalities about funding programs that could benefit them, about meetings on projects in and around their locations, and about training and materials that promote best practices for transportation planning. Municipalities are also informed about opportunities to appoint representatives to Strafford MPO committees, and they are made aware of regional and statewide documents that Strafford MPO has created which may be useful to them.

Opportunities for Participation

There are multiple opportunities for municipalities to participate in Strafford MPO’s planning efforts. Strafford MPO takes pride in its role as a conduit between state and federal agencies to disseminate information to municipalities related to transportation planning and to communicate municipal concerns to the NH Department of Transportation and other state and federal agencies.

Committee Participation

Each municipality in the region can nominate representatives to the Strafford MPO TAC and Policy Committee. The number of representatives a community can have, and whether they can vote (which is dependent on membership), are explained in the Strafford MPO Bylaws (See Appendix G). Policy Committee members are appointed from the ranks of the SRPC Commission. The planning boards in each community nominate a resident, and the selectboard or town council appoint the individual, who will serve a four-year term on the Commission. TAC members are nominated for a two-year term concurrent with the Unified Planning Working Program (UPWP) cycle. When a new UPWP cycle begins, communities and relevant agencies are asked to nominate two representatives. Municipal staffers can also attend at their discretion, since TAC and Policy Committee meetings are public.

Focus and Work Groups

Strafford MPO staff members often form sub-committees and focus groups. Staffers will often reach out to municipal officials and stakeholders in these instances. These smaller groups allow for more detailed discussion of topics such as regional collaboration, specific projects, project ranking, and various planning topics such as complete streets.

Project Solicitation

Projects included in the NH Ten-Year Transportation Improvement Plan are based on the regional and state transportation priorities outlined in the state long-range plan and the regional metropolitan transportation plans. To set these priorities, Strafford MPO solicits project proposals from communities and other local and regional organizations for consideration. The resulting project lists and identified transportation priorities serve as the basis for transportation planning in the region.

Strafford MPO solicits projects on a continuous two-year cycle. As part of this process, Strafford MPO verifies project priorities submitted through past project solicitation rounds and solicits new proposals for transportation improvement projects. The staff contacts the communities in the Strafford region, along with agencies and organizations that have a role in regional transportation, and encourages them to provide input about their transportation projects and priorities. The project solicitation effort results in a list of highway, bridge, bike/pedestrian, transit, rail, recreational trail, and other surface transportation projects that illuminates the regional priorities for transportation investments in the future.

Public Comment Periods

As explained earlier in this document, public comment periods are a good opportunity for engagement. Transportation planning documents are made available in the libraries of the region's cities, online, and at the SRPC office. Strafford MPO notifies municipalities of public comment periods online and through e-communications.

Public hearings are held at the end of the public comment periods and allow municipal staff to comment through their representatives on the TAC or Policy Committees, or as a guest.

Strafford MPO IN ACTION

On January 10th 2020, SRPC held a regional workshop on the linkages between transportation, housing, and economic development. A diverse group of stakeholders from around the region participated. They started out by proposing what they would want for the region without worrying about funding or feasibility constraints. Participants then refined those ideas from the core concept with potential real-world strategies. Finally, they discussed potential action steps to be taken toward implementing those strategies. The results of the workshop will help SRPC update the Metro Plan, Comprehensive Economic Development Strategy, and Housing Needs Assessment.

HOW WE MEASURE UP

What is Performance Based Planning?

The federal transportation authorization, Moving Ahead for Progress in the 21st Century Act (MAP-21) was signed into law by President Obama on July 6, 2012. With this authorization came new requirements for metropolitan planning organizations to conduct “performance-based planning,” a practice that includes the creation of state and metropolitan area performance measures and performance targets for:

- Pavement condition on the Interstate System and on the remainder of the National Highway System (NHS).
- Performance of the Interstate System and the remainder of the NHS.
- Bridge condition on the NHS.
- Fatalities and serious injuries—both number and rate per vehicle mile traveled—on all public roads.
- Traffic congestion.
- On-road mobile source emissions.
- Freight movement on the Interstate System.

Performance Based Planning & Strafford MPO

Strafford MPO strongly supports the implementation of performance-based planning. It is the organization’s view that a performance-based planning approach leads to better outcomes over the long term for the region. With this approach, over time the practices that work best to achieve performance targets will be affirmed and practices that do not support goals will be reassessed.

Strafford MPO also values a performance-based approach to help assess how well the organization is accomplishing its planning goals. This includes finding ways to evaluate the organization’s success in engaging the public. Understanding the level of success for public outreach will enable the organization to better direct and adapt outreach efforts to achieve the best results possible for educating the public and soliciting public input.

Outlining goals for organizational performance is less challenging than establishing meaningful measures that provide information about how successful the organization is in achieving these goals. In addition, the process of measuring and analyzing the indicators of success should be inexpensive and should not interfere with primary work efforts by being overly time consuming.

Strafford MPO has been using performance measures for public participation since the 2007 Public Participation Plan. The measures help the organization track items like the number of meetings held annually, social media posts and interaction, outreach and presentations, and members of the public involved and providing feedback. Measuring these indicators holds the organization accountable in its attempts to meet targets. To build on efforts set forth in earlier Public Participation Plans, Strafford MPO staff members refined the indicators for each subsequent update.

The following table comprises the measures Strafford MPO uses to track the performance of its public outreach and engagement techniques. The techniques are organized by goal. Strafford MPO is constantly conducting outreach and engagement for its transportation, regional planning, and economic development programs so there are overlapping impacts in the measures below. An individual blog post, survey, or workshop may be focused on transportation issues but also concern economic development. Since the Public Participation Plan is only updated every 4 years, the actual data on outreach measures are published in the SRPC Annual Report. Strafford MPO will periodically monitor these techniques and indicators to ensure it is moving towards its organizational goals.

Measure	Goal 1: Educate and inform the public about transportation planning processes	Goal 2: Solicit public input to identify transportation-related needs, desires, issues, and concerns	Goal 3: Advocate on behalf of regional communities, acting as a conduit between municipalities and statewide/federal entities	Goal 4: Foster collaboration between citizens, municipalities, and statewide organizations through providing forums for input and discussion.
Average number of people receiving e-communication (newsletter, Bits and Pieces, PB Updates, press releases, Newsletter subsections, and other)	P	S	S	S

APPENDICES

APPENDIX A – TITLE 23 PART 450.316 Interested Parties, Participation, and Consultation

(a) The MPO shall develop and use a documented participation plan that defines a process for providing individuals, affected public agencies, representatives of public transportation employees, public ports, freight shippers, providers of freight transportation services, private providers of transportation (including intercity bus operators, employer-based commuting programs, such as carpool program, vanpool program, transit benefit program, parking cash-out program, shuttle program, or telework program), representatives of users of public transportation, representatives of users of pedestrian walkways and bicycle transportation facilities, representatives of the disabled, and other interested parties with reasonable opportunities to be involved in the metropolitan transportation planning process.

(1) The MPO shall develop the participation plan in consultation with all interested parties and shall, at a minimum, describe explicit procedures, strategies, and desired outcomes for:

(i) Providing adequate public notice of public participation activities and time for public review and comment at key decision points, including a reasonable opportunity to comment on the proposed metropolitan transportation plan and the TIP;

(ii) Providing timely notice and reasonable access to information about transportation issues and processes;

(iii) Employing visualization techniques to describe metropolitan transportation plans and TIPs;

(iv) Making public information (technical information and meeting notices) available in electronically accessible formats and means, such as the World Wide Web;

(v) Holding any public meetings at convenient and accessible locations and times;

(vi) Demonstrating explicit consideration and response to public input received during the development of the metropolitan transportation plan and the TIP;

(vii) Seeking out and considering the needs of those traditionally underserved by existing transportation systems, such as low-income and minority households, who may face challenges accessing employment and other services;

(viii) Providing an additional opportunity for public comment, if the final metropolitan transportation plan or TIP differs significantly from the version that was made available for public comment by the MPO and raises new material issues that interested parties could not reasonably have foreseen from the public involvement efforts;

(ix) Coordinating with the statewide transportation planning public involvement and consultation processes under subpart B of this part; and

(x) Periodically reviewing the effectiveness of the procedures and strategies contained in the participation plan to ensure a full and open participation process.

(2) When significant written and oral comments are received on the draft metropolitan transportation plan and TIP (including the financial plans) as a result of the participation process in this section or the interagency consultation process required under the EPA transportation conformity regulations (40 CFR part 93, subpart A), a summary, analysis, and report on the disposition of comments shall be made as part of the final metropolitan transportation plan and TIP.

(3) A minimum public comment period of 45 calendar days shall be provided before the initial or revised participation plan is adopted by the MPO. Copies of the approved participation plan shall be provided to the FHWA and the FTA for informational purposes and shall be posted on the World Wide Web, to the maximum extent practicable.

(b) In developing metropolitan transportation plans and TIPs, the MPO should consult with agencies and officials responsible for other planning activities within the MPA that are affected by transportation (including State and local planned growth, economic development, tourism, natural disaster risk reduction, environmental protection, airport operations, or freight movements) or coordinate its planning process (to the maximum extent practicable) with such planning activities. In addition, the MPO(s) shall develop the metropolitan transportation plans and TIPs with due consideration of other related planning activities within the metropolitan area, and the process shall provide for the design and delivery of transportation services within the area that are provided by:

(1) Recipients of assistance under title 49 U.S.C. Chapter 53;

(2) Governmental agencies and non-profit organizations (including representatives of the agencies and organizations) that receive Federal assistance from a source other than the U.S. Department of Transportation to provide non-emergency transportation services; and

(3) Recipients of assistance under 23 U.S.C. 201- 204.

(c) When the MPA includes Indian Tribal lands, the MPO(s) shall appropriately involve the Indian Tribal government(s) in the development of the metropolitan transportation plan and the TIP.

(d) When the MPA includes Federal public lands, the MPO(s) shall appropriately involve the Federal land management agencies in the development of the metropolitan transportation plan and the TIP.

(e) MPOs shall, to the extent practicable, develop a documented process(es) that outlines roles, responsibilities, and key decision points for consulting with other governments and agencies, as defined in paragraphs (b), (c), and (d) of this section, which may be included in the agreement(s) developed under § 450.314.

[81 FR 34135, May 27, 2016, as amended at 81 FR 93473, Dec. 20, 2016]

APPENDIX B – The United States Code, reflecting changes made in the FAST Act (Fixing America’s Surface Transportation Act), Defines “Interested Parties” By Plan Type

The Long Range Statewide Transportation Plan, the STIP, and the Metropolitan Transportation Plan each list the same interested parties. The Metropolitan TIP does not list the interested parties, but refers back to the Metropolitan Transportation Plan in 23 U.S.C. 134(i)(5).

23 U.S.C. 135 (f) Long-Range Statewide Transportation Plan

(3): Participation by interested parties.

(A) In general.-In developing the statewide transportation plan, the State shall provide to-

- (i) nonmetropolitan local elected officials or, if applicable, through regional transportation planning organizations described in subsection (m), an opportunity to participate in accordance with subparagraph (B)(i); and**
- (ii) citizens, affected public agencies, representatives of public transportation employees, public ports, freight shippers, private providers of transportation (including intercity bus operators, employer-based commuting programs, such as a carpool program, vanpool program, transit benefit program, parking cash-out program, shuttle program, or telework program), representatives of users of public transportation, representatives of users of pedestrian walkways and bicycle transportation facilities, representatives of the disabled, providers of freight transportation services, and other interested parties a reasonable opportunity to comment on the proposed plan.**

23 U.S.C. 135 (g) Statewide Transportation Improvement Program.

3) Participation by interested parties.-In developing the program, the State shall provide citizens, affected public agencies, representatives of public transportation employees, public ports, freight shippers, private providers of transportation (including intercity bus operators), providers of freight transportation services, representatives of users of public transportation, representatives of users of pedestrian walkways and bicycle transportation facilities, representatives of the disabled, and other interested parties with a reasonable opportunity to comment on the proposed program.

23 U.S.C. 134 (i) Development of Transportation Plan

(6)Participation by interested parties

(A) In general.-Each metropolitan planning organization shall provide citizens, affected public agencies, representatives of public transportation employees, public ports, freight shippers, providers of freight transportation services, private providers of transportation (including intercity bus operators, employer-based commuting programs, such as a carpool program, vanpool program, transit benefit program, parking cash-out program, shuttle program, or telework program), representatives of users of public transportation, representatives of users of pedestrian walkways and bicycle transportation facilities, representatives of the disabled, and other interested parties with a reasonable opportunity to comment on the transportation plan.

23 U.S.C. 134 (j) Metropolitan TIP

(B) Opportunity for comment.-In developing the TIP, the metropolitan planning organization, in cooperation with the State and any affected public transportation operator, shall provide an opportunity for participation by interested parties in the development of the program, in accordance with subsection (i)(5).

APPENDIX C – Code 40 CFR 93.134 TIP/STIP Exempt Projects

Certain amendments under the following general categories may, upon written request and at the discretion of the MPO, be made to the TIP without requiring a public participation process. Such projects shall include only ones which are exempt from air quality conformity determination under provisions of the Clean Air Act Amendment of 1990 and 40 CFR 93.134 and which are otherwise minor in nature, both in terms of scope and potential negative impact.

40 CFR 93.134 - EXEMPT PROJECTS	
<p><u>Safety</u></p> <p>Railroad/highway crossing. Hazard elimination program.</p> <p>Safer non-Federal-aid system roads. Shoulder improvements.</p> <p>Increasing sight distance. Safety improvement program.</p> <p>Traffic control devices and operating assistance other than signalization projects.</p> <p>Railroad/highway crossing warning devices.</p> <p>Guardrails, median barriers, crash cushions.</p> <p>Pavement resurfacing and/or rehabilitation.</p> <p>Pavement marking demonstration.</p> <p>Emergency relief (23 U.S.C. 125). Fencing.</p> <p>Skid treatments.</p> <p>Safety roadside rest areas. Adding medians.</p> <p>Truck climbing lanes outside the urbanized area.</p> <p>Lighting improvements.</p> <p>Widening narrow pavements or reconstructing bridges (no additional travel lanes).</p> <p>Emergency truck pullovers.</p>	<p><u>Mass Transit</u></p> <p>Operating assistance to transit agencies. Purchase of support vehicles.</p> <p>Rehabilitation of transit vehicles.</p> <p>Purchase of office, shop, and operating equipment for existing facilities.</p> <p>Purchase of operating equipment for vehicles (e.g., radios, fareboxes, lifts, etc.).</p> <p>Construction or renovation of power, signal, and communications systems.</p> <p>Construction of small passenger shelters and information kiosks.</p> <p>Reconstruction or renovation of transit buildings and structures (e.g., rail or bus buildings, storage and maintenance facilities, stations, terminals, and ancillary structures).</p> <p>Rehabilitation or reconstruction of track structures, track, and trackbed in existing rights-of-way.</p> <p>Purchase of new buses and rail cars to replace existing vehicles or for minor expansions of the fleet.</p> <p>Construction of new bus or rail storage/maintenance facilities categorically excluded in 23 CFR part 771.</p>
<p><u>Air Quality</u></p> <p>Continuation of ride-sharing and van-pooling promotion activities at current levels.</p> <p>Bicycle and pedestrian facilities.</p>	<p><u>Other</u></p> <p>Specific activities which do not involve or lead directly to construction, such as: Planning and technical studies; Grants for training and research programs; Planning activities conducted pursuant to titles 23 and 49 U.S.C.; and Federal-aid systems revisions.</p> <p>Engineering to assess social, economic, and environmental effects of the proposed action or alternatives to that action.</p> <p>Noise attenuation.</p> <p>Advance land acquisitions (23 CFR part 712 or 23 CFR part 771).</p> <p>Acquisition of scenic easements. Plantings, landscaping, etc.</p> <p>Sign removal.</p> <p>Directional and informational signs.</p> <p>Transportation enhancement activities (except rehabilitation and operation of historic transportation buildings, structures, or facilities).</p> <p>Repair of damage caused by natural disasters, civil unrest, or terrorist acts, except projects involving substantial functional, locational or capacity changes.</p>

APPENDIX D – Adopting Resolution for the Strafford Metropolitan Planning Organization

WHEREAS, the urban transportation planning process is required to have a PUBLIC PARTICIPATION PLAN which delineates currently valid organizational responsibilities, operating procedures, and a summary of the planning program; and

WHEREAS, the PUBLIC PARTICIPATION PLAN establishes the multi-year framework within which the Unified Planning Work Program for transportation planning in the Strafford MPO Study Area is accomplished; and

WHEREAS, the responsibilities for cooperatively carrying out the urban transportation planning process are clearly defined in the PUBLIC PARTICIPATION PLAN and via executed agreements or memorandum of understanding attached to the PUBLIC PARTICIPATION PLAN;

NOW THEREFORE BE IT RESOLVED THAT:

The Strafford Metropolitan Planning Organization adopts the PUBLIC PARTICIPATION PLAN dated .

The undersigned duly qualified Chairpersons of the Strafford Regional Planning Commission hereby certify that the foregoing is a true and correct copy of a resolution, adopted at legally convened meeting of the Strafford MPO Policy Committee held on the following date:

For Strafford Regional Planning Commission

Chairperson

Date

APPENDIX E – Equity and Engagement Checklist

Equity and Engagement Checklist
Developed by Engagement and Equity TASC, December, 2012

In order to assure maximum and equitable participation by all residents of a community or region, the Equity and Engagement Technical Assistance Subcommittee of the Granite State Future project has developed the following suggestions for conducting planning initiatives.

1. Strive for demographically representative engagement that reflects the community or region where planning is occurring. This may entail special efforts to reach out and engage groups that traditionally have not participated in such work, for reasons of place, economic status, age, education levels, mobility limitations or other disabilities, or cultural and ethnic differences.
2. To the extent that is legally permissible, create opportunities for participatory decision making as the first principle in planning activities. Planners have special expertise and knowledge. That expertise and knowledge should be shared with community partners as much as possible, in order to increase informed participation, a shared sense of investment in decisions and implementation, and equitable relationships. The goal of mutual empowerment of planners and community members is crucial
3. As planning goals are set and decisions are made, consider the impact of those decisions (before they are finalized) on all constituent groups and sectors in a community or region.
4. In public conversations, media releases, and reports published for public consumption, use plain, everyday language accessible to anyone (including considerations of reading level and translation from English to other languages as appropriate).
5. As plans and goals are developed, take into account their impact on diverse groups, including best judgments about what groups could be advantaged and what groups could be disadvantaged by those decisions, and taking steps to mitigate any anticipated losses of resources, status, or power by those who might be disadvantaged.
6. Design effective feedback loops to inform participants about the ways their input was considered and acted upon.
7. Respect the core value of local control that characterizes New Hampshire’s political and community culture. Plans and goals that require regional collaboration (for example in areas such as transportation, natural resource management, public school governance, economic development) should strive to maintain community identity and integrity as much as possible.
8. Planning processes must attend to the “soft infrastructure” of communities—the people who live, work, and interact with each other, not just the built environment that serves those people.
9. Specific planning decisions concerned with principles of equity will take into account such matters as where stores and businesses are located with respect to walking and transportation routes used by less affluent or minority populations or those with special mobility needs; access to fresh, affordable foods; personal safety; and other criteria that reflect the goal of maximum access and participation in community life.
10. Practices of equitable engagement in local and regional planning efforts should be sufficiently consistent across sites so that residents moving from one community to another will have similar access to and be able to understand planning and decision making processes.

ARTICLE VII: AMENDMENTS

ARTICLE I: ORGANIZATION

A. NAME:

The name of this organization shall be the Strafford Metropolitan Planning Organization (SMPO) and shall hereafter be referred to as the SMPO. The SMPO consists of the Strafford Regional Planning Commission (SRPC) and those appropriate State and local agencies necessary to approve transportation plans and programs.

B. AUTHORIZATION:

The authorization for this Organization is set forth in an Executive Order dated August 10, 2007, whereby SRPC was designated as the cognizant Metropolitan Planning Organization for the New Hampshire portion of the Rochester-Dover Urbanized area, pursuant to the Federal Highway Act of 1964.

C. STRAFFORD METROPOLITAN PLANNING ORGANIZATION AREA:

The following communities constitute the SMPO area: Barrington, Brookfield, Dover, Durham, Farmington, Lee, Madbury, Middleton, Milton, New Durham, Newmarket, Northwood, Nottingham, Rochester, Rollinsford, Somersworth, Strafford and Wakefield.

1. Urbanized Communities include: Dover, Durham, Madbury, Newmarket, Rochester, Rollinsford and Somersworth.
2. Non-Urbanized Communities include: Barrington, Brookfield, Farmington, Lee, Middleton, Milton, New Durham, Northwood, Nottingham, Strafford and Wakefield.

D. PRINCIPAL OFFICE:

The principal office of the SMPO is located at SRPC Office at 150 Wakefield Street, Suite 12, Rochester, NH 03867 Office Hours: 8:30 am to 5:00 pm. Monday-Friday, Telephone: (603) 994-3500 Fax: (603) 994-3504 Email: SRPC@strafford.org; Website: www.strafford.org.

E. ORGANIZATIONAL STRUCTURE:

The SMPO fiscal year shall be July 1st through June 30th. The organization shall consist of three (3) committees: (1) The SRPC/SMPO Executive Committee, (2) The SMPO Policy Committee and (3) The SMPO Technical Advisory Committee. Additional committees and subcommittees shall be formed as deemed necessary.

F. PURPOSE:

The purpose of these bylaws is to inform the public of the nature of the SMPO's business, operations, delegation of authority, internal organization and other related matters. Additionally, the intent is to provide procedures and policies for the SMPO and to insure the accomplishment of the planning tasks within a cooperative framework properly related to comprehensive planning on a continual basis.

ARTICLE II: POLICY COMMITTEE

A. NAME:

The Policy Committee shall hereafter be referred to as the "Policy Committee".

B. PURPOSE:

The purpose of the Policy Committee shall be to provide a forum for the development of regional transportation policies for the SMPO and to act as a vehicle to coordinate the implementation of these policies.

C. RESPONSIBILITIES:

1. The Policy Committee is responsible for carrying out the metropolitan transportation planning process as required by the Safe, Accountable, Flexible, Efficient Transportation Equity Act – A Legacy for Users (SAFTEA-LU) and related federal implementing regulations. This responsibility is carried out through oversight of the Unified Planning Work Program (UPWP) and through the development, review and approval of the Prospectus, the Metropolitan Transportation Plan, the Transportation Improvement Program (TIP), and the Air Quality Conformity Determination. SMPO activities related to these responsibilities include, but are not limited to the following:

- (a) Establish the policy directions of the SMPO through its adopted plans and policy statements.
- (b) Establish procedures and requirements whereby federal transportation funds will be allocated and made available in cooperation with the New Hampshire Department of Transportation (NHDOT).
- (c) Adopt, review and/or revise the Unified Planning Work Program (UPWP), Prospectus, Metropolitan Transportation Plan, TIP and Conformity Determination.
- (d) Review and comment on individual projects, programs, plans and reports relative to the adopted transportation policies and positions.
- (e) Request, review and endorse technical reports and studies prepared by the SMPO staff or consultants.
- (f) Ensure compliance with the provisions of the Clean Air Act Amendment (CAAA) of 1990 through periodic conformity evaluation and a determination.
- (g) Adopt, review and/or revise policies relative to the findings of the Technical Advisory Committee (TAC), including technical reports and memoranda.
- (h) Provide a mechanism to facilitate and broaden public involvement in transportation planning and decision-making processes.
- (i) Coordinate and prioritize transportation projects to be implemented with Federal and/or State assistance.
- (j) Monitor and participate in transportation policy making activities with the NHDOT and the transportation or other relevant committees of the New Hampshire General Court.

(k) Collaborate in the development of public transit and multi-modal plans.

D. MEMBERSHIP:

1. Voting Members:

(a) Each dues paid member community within SRPC will be represented by their appointed regional planning commissioners. Each commissioner shall have one vote. Communities are entitled to appoint as many voting representatives as permitted per RSA 36:46, III.

Barrington (2)	Madbury (2)	Nottingham (2)
Brookfield (2)	Middleton (2)	Rochester (4)
Dover (4)	Milton (2)	Rollinsford (2)
Durham (3)	New Durham (2)	Somersworth (3)
Farmington (2)	Newmarket (2)	Strafford (2)
Lee (2)	Northwood (2)	Wakefield (2)

(b) Communities that have not paid annual dues to SRPC shall have one representative, and one alternate, equal to one vote.

(c) There shall be one voting member or designee from each of the following agencies:

- i. New Hampshire Department of Transportation (NHDOT)
- ii. New Hampshire Department of Environmental Services-Air Resources Division (NHDES-ARD)
- iii. Cooperative Alliance for Strafford Regional Transportation (COAST)
- iv. University of New Hampshire (UNH)

The appointing authority is permitted and encouraged to designate one alternate for each appointed representative. An alternate shall have voting privileges in the absence of the voting representative.

2. Non-Voting Members:

(a) Each of the following may appoint a non-voting member:

- i. Federal Highway Administration (FHWA)
- ii. Federal Transit Administration (FTA)
- iii. New Hampshire Department of Transportation-Bureau of Aeronautics (NHDOT-Aeronautics)
- iv. New Hampshire Department of Transportation – Bureau of Rails and Transit (NHDOT-BRT)
- v. New Hampshire Office of Energy and Planning (NHOEP)
- vi. Rockingham Planning Commission (RPC)
- vii. Southern Maine Regional Planning Commission (SMRPC)
- viii. Maine Department of Transportation (Maine-DOT)
- ix. New Hampshire Transit Association (NHTA)
- x. Federal Railroad Administration (FRA)
- xi. Pease Development Authority/New Hampshire Port Authority (PDA/NHPA)

The appointing authority is permitted and encouraged to designate one (1) alternate for each appointed representative.

(b) The Committee may authorize additional non-voting members.

3. Quorum:

(a) A quorum of the Policy Committee shall be deemed as representing no less than one-third (1/3) rounded plus one of the dues paid municipalities with appointed Commissioner(s) and voting agencies per (1) (C).

(b) For the purposes of a quorum, one (1) appointed representative per municipality or voting agency present at the meeting would be counted.

(c) Motions shall be carried by a simple majority of the voting power present after having established a quorum.

4. Terms and Re-Appointment:

(a) The appointment of municipal representatives shall be in compliance with RSA 36:46, Paragraph III. Appointments to the Policy Committee shall run with the Commissioner's terms.

(b) In the event that a Policy Committee member resigns, notification of their resignation shall be filed with SRPC and the appointing body. The municipality or voting agency shall receive a notice from SRPC so that a new appointment can be made.

E. OFFICERS:

1. Election of Officers

The Officers of SRPC will function as the Officers of the Policy Committee per the SRPC bylaws. Vacancies in office shall be filled immediately by the regular election procedure described in the SRPC bylaws.

2. Positions:

(a) The Chairperson shall preside at all meetings and shall have the power to call special meetings, establish agendas, establish and appoint committees and their members.

(b) The Vice-Chairperson, if the Chairperson is unable to attend the meeting, shall be acting Chairperson and shall have the same powers granted to the Chairperson.

(c) The Secretary/Treasurer, if the Chairperson or Vice-Chairperson is unable to attend the meeting, shall be acting Chairperson and shall have the same powers granted to the Chairperson. The Secretary/Treasurer shall be responsible for such financial duties as are customary to the office.

F. MEETINGS:

The Policy Committee meetings are held on the third Friday of every month immediately after the SRPC Executive Committee meeting at the SRPC office and at the call of the Chairperson.

ARTICLE III: EXECUTIVE COMMITTEE

A. NAME:

The SRPC Executive Committee shall hereafter be referred to as the EC.

B. PURPOSE:

The purpose of the EC shall be to facilitate the administration of the SMPO, ensure that TAC policy and planning recommendations are brought before the Policy Committee, and ensure that the decisions of the Policy Committee are implemented.

C. RESPONSIBILITIES:

The duties of the EC will include, but not be limited to the following:

1. Ensure that the directives of the SMPO voting membership are carried out.
2. Oversee the affairs of the SMPO between its regular meetings and to act on behalf of the Policy Committee in emergencies. An emergency is defined as an action necessary to carry out the responsibilities of the SMPO, when waiting for a regular Policy Committee meeting would jeopardize the SMPO's ability to carry out its responsibilities.
3. Determine, with the assistance of the Executive Director and the TAC, the UPWP scope and content, and to transmit it to the Policy Committee for final approval. Recommend the biennial UPWP scope of work and budget to the Policy Committee for approval.
4. Oversee the operating expenditures of the SMPO as recommended by the Executive Director.
5. Provide a report of its activities and/or minutes prior to Policy Committee meeting.

D. MEMBERSHIP:

The members of the EC shall consist of seven (7) members: Chairperson, Vice-Chairperson, Secretary/Treasurer, and four (4) members elected at the SRPC Annual Meeting. The EC shall include representation from both large and small communities.

E. OFFICERS:

Officers of SMPO serve on the EC in accordance with their respective terms of office. The At-Large Members of the EC shall be elected each year for a one (1) year term commencing after July 1st of that year.

1. Election of Officers:

The SMPO officers shall consist of a Chairperson, Vice-Chairperson and a Secretary/Treasurer per SRPC bylaws. Each officer shall serve a one (1) year term based on annual elections at the Annual Meeting. Vacancies in office shall be filled immediately by the regular election procedure found in the SRPC bylaws.

2. Positions:

(a) The Chairperson shall preside at all meetings and shall have the power to call special meetings, establish agendas, established and appoint committees and their members.

(b) The Vice-Chairperson, if the Chairperson is unable to attend the meeting, shall be acting Chairperson and shall have the same powers granted to the Chairperson.

(c) The Secretary/Treasurer, if the Chairperson and Vice-Chairperson are unable to attend the meeting, shall be acting Chairperson and shall have the same powers granted to the Chairperson. The Secretary/Treasurer shall be responsible for such financial duties as are customary to the office.

3. Vacancy:

In the event of an officer vacancy between annual elections, the EC shall elect an At-Large Member of the EC to serve until the next Annual meeting. The EC shall fill at-large member vacancies from the Commission. Such appointments shall expire at the end of the fiscal year.

F. MEETINGS:

1 The EC meetings are held on the third Friday of every month at 8:00 am at the SRPC Office. Special meetings can be called at the request of the Chairperson or the Executive Director. Notices of EC meetings shall be noticed on website and at the SRPC office.

2 Quorum: The voting power of the EC shall consist of a total of seven (7) votes. A majority of the voting power (4) shall constitute a quorum for the transaction of business at meetings.

ARTICLE IV: TECHNICAL ADVISORY COMMITTEE

A. NAME:

The SMPO Technical Advisory Committee shall hereafter be referred to as the “Technical Advisory Committee”.

B. PURPOSE:

The purpose of the Technical Advisory Committee (TAC) is to provide the SMPO with technical assistance and recommendations concerning transportation issues that have a bearing on the SMPO's continued, comprehensive, and coordinated transportation planning process. The TAC is hereby established as a standing committee of the SMPO.

C. RESPONSIBILITY:

The TAC will review and make recommendations to the SMPO Policy Committee on transportation planning efforts in the SMPO area as follows:

- 1** Updates, revisions and amendments to the Metropolitan Transportation Plan to assure that recommended activities identified in the Metropolitan Transportation Plan are considered in the development of the annual work plan, Transportation Improvement Plan, air conformity determination, and other required documents of the SMPO.
- 2.** Development of a comprehensive public transportation system in the region by understanding the necessary components as well as developing funding models and indicators of success.
- 3.** Policy recommendations related to the public transportation systems.
- 4.** Contents of the biennial Transportation Improvement Plan (TIP) update.
- 5.** Technical planning/engineering studies to be considered in the Unified Planning Work Program (UPWP).
- 6.** Scoping reports and planning studies.
- 7.** Development and implementation of the Public Participation Plan.
- 8.** Guidance to UPWP and TIP related to issues or projects that arise from the long term planning.
- 9.** Development of and coordination of project and issues that are of regional significance and or require the perspective that spans communities.
- 10.** Any other activities as requested by the SMPO Policy Committee.

The TAC, without SMPO Policy Committee approval, may:

- 1.** Evaluate and prioritize technical assistance for the SMPO members.
- 2.** Review and suggest revisions to staff and consultant technical assistance work.
- 3.** Establish subcommittee(s) to address significant areas of interest

D. MEMBERSHIP:

The TAC shall include representative from the SMPO communities, federal, state and interested agencies.

1. Voting Members:

(a) There shall be one (1) voting member or designee from each of the following: (The appointing authority is permitted and encouraged to designate one (1) alternate for each appointed representative. An alternate shall have voting privileges in the absence of the voting representative).

- i. Each SRPC community represented on the SMPO
- ii. NH Department of Transportation (NHDOT), District 6, or District 3
- iii. NH Department of Environmental Services – Air Resources Division (NHDES-ARD)
- iv. Cooperative Alliance for Strafford Regional Transportation (COAST)
- v. University of New Hampshire (UNH)

2. Non-voting member:

(a) Each of the following may appoint a non-voting member: (The appointing authority is permitted and encouraged to designate one (1) alternate for each appointed representative).

- i. Federal Highway Administration (FHWA)
- ii. Federal Transit Administration (FTA)
- iii. New Hampshire Department of Transportation – District 6
- iv. New Hampshire Department of Transportation – District 3
- v. New Hampshire Department of Transportation – Bureau of Aeronautics
- vi. New Hampshire Department of Transportation- Bureau of Rails and Transit
- vii. Southern Maine Regional Planning Commission (SMRPC)
- viii. Rockingham Planning Commission (RPC)
- ix. Maine Department of Transportation (Maine-DOT)
- x. Pease Development Authority (PDA)/New Hampshire Port Authority (NHPA)
- xi. Guilford Railroad or Pan Am Railways
- xii. Federal Railroad Administration (FRA)
- xiii. Northern New England Passenger Rail Authority (NNEPRA)
- xiv. New Hampshire Transit Association (NHTA)
- xv. Transportation Center or Park and Ride Terminal Operator
- xvi. Alliance for Community Transportation (ACT)
- xvii. Strafford Regional Area Bicycle Routes (SABR)
- xviii. Bike-Walk Alliance of New Hampshire (BWANH)
- xix. New Hampshire Motor Transport Association
- xx. Seacoast Commuter Options
- xxi. C&J Trailways

(b) The Committee may authorize additional non-voting members.

3. Quorum:

(a) A quorum of the TAC shall be deemed as representing no less than one-third (1/3) rounded plus one of the municipal membership and voting agencies who have made appointments

(b) Motions shall be carried by a simple majority of the voting power present after having established a quorum.

4. Vacancy:

In the event that a Committee member resigns, notification of their resignation shall be filed with SRPC and the appointing body. The municipality or voting agency shall receive a notice from SRPC so that a new appointment can be made.

5. Terms and Re-Appointment:

The appointment of each representative shall be a period of two years. Appointments shall be certified in writing by the appointment authority prior to the start of the fiscal year (July 1st).

E. OFFICERS:

1. Election of Officers:

At the first Committee meeting after the start of the fiscal year, the election of officers will take place. The TAC Officers shall consist of a Chairperson and Vice-Chairperson. Nominations for Chairperson and Vice-Chairperson shall be made from the floor and can include only voting members. The Chairperson will serve a one (1) year term. Vice-Chairperson will take over the role of Chairperson after the one (1) year term. Vacancies in office shall be filled immediately by the regular election procedure.

2. Positions:

- a) As a qualification for office, the Chairperson shall have served at least one (1) year as a representative on the SMPO. The Chairperson shall preside at all
- b) meetings and shall have the power to call special meetings, establish agendas, establish and appoint committees and their members.
- c) The Vice-Chairperson, if the Chairperson is unable to attend the meeting, shall be acting Chairperson and shall have the same powers granted to the Chairperson.

F. MEETINGS:

The MPO TAC meetings are held monthly on the first Friday of the month at 9AM and at the call of the Chairperson. Meetings are held in the SRPC office.

ARTICLE V: STRAFFORD METROPOLITAN TRANSPORTATION PLANNING ORGANIZATION STAFF

A. EXECUTIVE DIRECTOR:

The Executive Director shall:

- 1 Be responsible to the SMPO Committees for carrying out directives.
2. Carry out all aspects of the regional transportation planning program.
3. Manage contracts with consultants for the purpose of implementing the adopted UPWP.
4. Recommend changes to the Bylaws and Prospectus.
5. Be responsible for the administration of the office.
6. Hire and manage staff.
7. Be in charge of all general correspondence of the SMPO.
8. Be responsible for receiving all moneys due the SMPO.
9. Assist the Recording Clerk, and in this manner be responsible for:
 - (a) Keeping minutes of regular and special meetings of the SMPO.

- (b) Notifying members of their election to office or appointment to committees.
10. Prepare an annual budget to be reviewed by the EC prior to submission for approval at the Annual Meeting of Commission.
 11. Prepare a biennial UPWP to be reviewed by the EC prior to submission for approval by the Policy Committee.
 12. Disburse the funds in accordance with the budget and as authorized.
 13. Keep accounts, which shall at all times be open to inspection.
 14. Undertake such other duties as the SMPO shall assign.
 15. Maintain files of job descriptions and responsibilities for additional staff.

B. STAFF MEMBERS:

1. Staff shall be responsible for having the TAC develop and review documents, amendments, and reports in a timely fashion.
2. Staff shall be responsible for providing all recommendations to the SMPO Policy Committee through the Executive Director with a written record of recommendations by the TAC, and/or a formal recommendation signed by the TAC Chairperson.
3. Undertake such other duties as the SMPO may assign.

C. RECORDING CLERK:

The Recording Clerk shall keep the minutes and records, preparing the agenda of regular and special meetings, provide the notice of all meetings, arrange proper and legal notice of hearings, attend to correspondence, and such other duties as are normally carried out by a recording clerk.

Notice of Meetings: Committee meetings shall be posted at least ten days prior to the meeting.

ARTICLE VI: GENERAL

General Policies shall apply to all committees and participants of the SMPO.

A. REMOVAL:

Members and alternates shall serve at the pleasure of their respective legislative bodies and may be removed during their term by their respective legislative bodies.

B. MAILINGS:

Members will be sent meeting notification, agendas, and appropriate documents via e-mail or mail one (1) week prior to the actual meeting date, except in the case of special meetings.

C. ORDER OF BUSINESS:

1. The normal order of business at regularly scheduled meetings of the Committee shall be as follows:
 - (a) Call to order
 - (b) Introductions
 - (c) Staff Communications
 - (d) Action Items
 - (e) Discussion Items
 - (f) Project Updates
 - (g) Other Business
 - (h) Adjournment

2. The normal order of business may be changed at the discretion of the Chairperson.

D. SPECIAL MEETINGS:

Special meetings may be called by the Chairperson or by a majority of the Committee.

E. VOTING:

Voting shall be by voice vote; however, upon the request of at least one (1) voting member, voting shall be by roll call. In the event of a tie vote, the motion before the Committee shall fail.

F. PUBLIC INVOLVEMENT:

In order to maintain a comprehensive, coordinated, and continuing transportation planning process, and to ensure that the concerns of area citizens are addressed throughout all projects, programs, plans, and reports developed by the SMPO, the SMPO may use, but is not limited to the following procedures:

1. Establish advisory committees as appropriate, to include such functions as goals and objectives, environmental impact, intergovernmental relations, office relocation, network planning, etc.
2. Use the news media, public access cable channels, and Internet to provide public informational programs, which are conducted to ensure that citizens are well informed about opportunities and problems in the planning areas and regarding the status of planning.
3. Use informal working sessions with citizens representing geographic areas and inclusive facets of the community for an exchange of views regarding planning programs.
4. Conduct public hearings at which plans, programs, policies, and proposals are presented for public input.
5. Conduct all regular and special Committee meetings in accordance with the provisions of New Hampshire Revised Statutes Annotated, Chapter 91-A.
6. Maintain a database of interested citizens or other private entities.
7. Fulfill all requirements of the Safe, Accountable, Flexible, Efficient Transportation Equity Act – A Legacy for Users (SAFTEA-LU) as required by the Joint Federal
8. Highway Administration and the Federal Transit Administration Planning Rule – 23 CFR Part 450.316 (b) (1 & 2) regarding the public involvement process when carrying out the activities of the SMPO.
9. All published data and/or reports shall be made available to public and agencies.

ARTICLE VII: REPEALER

Any other conflicting resolution adopted prior to the date of the adoption of these Bylaws is hereby repealed.

ARTICLE VIII: AMENDMENTS

A. Any section herein contained may be amended by resolution of the voting representatives of the Policy Committee at any legally constituted and noticed meeting provided the following:

- 1. The proposed amendment is presented in writing to the Policy Committee representatives atleast thirty (30) days prior to the date of the meeting at which they are to be enacted;**
- 2. The resolution adopting the amendment passes by an affirmative vote of at least two-thirds (2/3) of the members present and voting.**

B. These bylaws shall be revised, updated, or amended as the circumstance dictates.

C. Bylaw amendments shall become effective upon passage.

APPENDIX H – Public Comment Record

Update to the Public Participation Plan - November 2020

No substantive comments were received from the general public or outside stakeholders during development of the draft plan, during a public comment period from Thursday, October 1st, 2020 to Monday, November 16, 2020. Or during the electronic public hearing held prior to the Strafford MPO Policy Committee meeting at 9:00 am on Friday, November 20, 2020.

Public meetings during this plan update were held electronically due to the COVID-19 coronavirus pandemic, as authorized by the Governor's Emergency Order #12 and Executive Order 2020-21 [most current orders at the time of publication of this document]. All decisions at public meetings described below were made via a roll-call vote.

Comments received during the Strafford MPO Technical Advisory Committee meeting on Friday November 6, 2020

Comment:

Will virtual meeting participation still be an option once a vaccine is available and the Governor's executive and emergency orders pertaining to the coronavirus have been lifted?

Response:

Yes, the current state law [91:A] requires a quorum to be physically present at meetings of public bodies under non-emergency situations, but virtual participation will still be an option. The chair of any public body may declare an emergency situation in which holding a meeting in-person is unsafe or impractical.

Comment:

Has SRPC investigated options for translating its public documents into other languages?

Response:

Yes, the website is in the process of being updated and will include translations. Staff are also researching tools for translation of MPO documents and plans.

The Technical Advisory Committee voted unanimously to approve the draft Public Participation Plan.

Comments received during the public hearing held at the Strafford MPO Policy Committee meeting on November 20, 2020 at 9:00am

Comment:

Please ensure acronyms are spelled out in MPO documents like the Public Participation Plan.

Response:

The final published plan will spell out all acronyms and staff are always striving to make written materials as readable as possible.

The Policy Committee voted unanimously to approve the draft Public Participation Plan.
