Gradual move north/regional gentrification (Newburyport -> Portsmouth -> Dover -> Rochester)	Farmington
Minimum lot sizes a concern	Farmington
Affordability requirements may be a disincentive	Farmington
Healthy mix of uses, density, and zoning	Dover
Attempting additional upzoning	Dover
Exploring allowing 2 ADUs where one is required to maintain HUD affordability	Dover
Expansion of residential uses on first floor in business district	Somersworth
Parking regulations moved elsewhere in ordinances	Somersworth
Frustrated abutters even single family home are built	Somersworth
Inventory of code compliance/safety for existing housing stock	Somersworth
Presence of and building for millennials + young kids	Somersworth
Density "rings" – allowed density in village centers – Gonic, East Rochester	Rochester
Regulations may be relaxed but utilities become a concern	Rochester
Trend in manufactured housing for those looking to downsize	Barrington
Nonconformity is a barrier	Barrington
Identification of best workforce housing area(s) – however, hard to define "affordable"	Barrington
Seasonal homes transitioning to work from home crowd	Barrington
Seeking diversity	Newmarket
Amending ADU zoning to be more flexible	Newmarket
"Gateways"	Newmarket
Utilities ready	Newmarket
Zoning changes in north Newmarket playing to Durham	Newmarket
ADU regulations considered relaxed	Wakefield
Water/sewer being improved – capacity could meet increased housing, but will zoning allow it?	Wakefield
Work from home crowd moved in and never left, other town resources overwhelmed	Wakefield
DOES require upgrades to utilities for transition to year round use	Wakefield
One of few communities with a shoreland officer	Wakefield
Student Housing	Durham
Verbiage (Perception and stigmas, Local politics, Use of jargon becomes confusing)	General/Regional
Septic capacity for seasonal homes transitioning to year round use	General/Regional
Municipalities with smaller tax bases may not have resources for addressing sensitivity of lakes	General/Regional
Minimum wage in popular culture vs infrastructure as an "under the rug"/later problem	General/Regional
Affordable housing =/= subsidized housing	General/Regional
Need for multi municipal agreements	General/Regional
Internet access	General/Regional

Comment	Town
Greatest need for 50-80% AMI, already has existing diversity of home types (Some multifamily around Traffic Circle, however not really seen as a good ROI for multifamily at Traffic Circle at this time)	Lee
Large buildable areas but many fall within preserved land	Lee
Looking to expand ADU flexibility – particularly for older residents with maybe larger homes	Lee
Minimal or no growth in smaller communities (HOWEVER, 30% of residents are new)	Milton
Median age rises in tandem with shrinking household size	Milton
Lack of rentals, lack of senior targeted housing (No housing available for hourly town staff)	Milton
Utility capacity for high-unit developments is a concern even when it is desired or deemed appropriate (Would a municipality even have capacity to invest in utilities and connections anyway?)	Milton
Concept: 55+ open space development with 18 single family homes – shared roads in a condominium agreement – possible natural amenities	Milton
Conservation and preserved lands (Always had a passion for preserved lands, does the town want conservation land more than it wants workforce housing even though there is clear demand and support?, environmental concerns brought up in bad faith)	Durham
Durham does not have many large parcels	Durham
Very high price point	Durham
Not conducive to students	Durham
Need for more workforce housing	Durham
Housing committee	Durham
Some oncoming zoning changes	Durham
Permitting patterns(Many open space subdivisions of 2-4 lots fairly regular, 6-8 lots about once a month, Larger (15-20+) maybe once a year)	Nottingham
Rural character	Nottingham
Only hear feedback when actions are “bad”	Nottingham
No municipal sewer/water, no hospital	Nottingham
Preference for attached ADUs	Nottingham
Growth in young families may be at odds with aging-in-place (Cost of schools as a bedroom community, Rezoning to promote business growth)	Nottingham
Density bonuses for workforce housing in open space areas	Nottingham
High price point	Nottingham
No rentals	Nottingham
Fairly flexible, not many permit denials	Rollinsford
Stigma of workforce housing = low income housing	Rollinsford
Some major subdivisions	Rollinsford
Some understanding that Tri Cities + others have taken on a large amount of the development in 20 years	Rollinsford

Comment	Town
Dover/Durham high price point has not caused a big bleed effect into Rollinsford (yet)	Rollinsford
ADUs flexible, however, not seen a large spike in permits	Rollinsford
Recent master plan survey has leading questions about rural character	Northwood
Apartment is anything with more than 2 units, therefore “in 10 years...” defaults to mostly single family homes	Northwood
Some demand for workforce housing and 55+	Northwood
No rentals	Northwood
Tackling Airbnb and lakefront rentals	Northwood
Transition of lakefronts + seasonals to year round use following covid	Northwood
Subdivisions are always small (less than 4 lots)	Northwood
Strict subdivision regs become cost prohibitive to towns/developers/residents alike	Northwood
Route 4 traffic concerns	Northwood
ADU – principal structure rental switch (Owner lives in ADU and rents principal)	General/Regional
Workforce housing (How to keep workforce housing “workforce housing”, Misunderstanding of the workforce housing process (“The town will just pay the rest of the rent”, Fluidity and clearness of workforce housing/density bonuses, Is the bonus enough and is it worth it?)	General/Regional
Can town staff afford to live in their community?	General/Regional
“Best use:” Is that someone’s profit or the housing needs of the community?	General/Regional
Has perception of environmental protections changed since 70s/80s/90s	General/Regional
Lack of full time planner – even with circuit rider, planning labor may be more used for administration and applications rather than long term planning	General/Regional
Millennial/Gen Z preference for a walkable downtown with businesses even in bedroom communities	General/Regional
The Berwicks	General/Regional
Initial rental seeking for first unit is most difficult... creates difficulty for young people and people moving in from elsewhere	General/Regional
What to do with “bowling alley” lots	General/Regional
Reconciling desire for “rural character” with demand for urban/suburban amenities (Hannaford, Target) (If these amenities are allowed, how can municipalities manage and plan for growth that may occur as a result?)	General/Regional
Lack of rental units in bedroom communities – ex. What options are available for families during a divorce?	General/Regional

KEY POINTS

Infrastructure concerns whether for building new housing, or upgrading seasonal housing to year-round with wfh crowd

Comment**Town**

More flexible ADU zoning

There are stigmas and jargon that make people misunderstand or fearful

Need for more workforce housing

There are lack of rentals is some of the more rural communities

How to find that balance between rural and having housing options

SRPC Housing Workshop (August 16, 2022) Comments from Activity 2

Notes	Map
Infrastructure needs, sewer water (Expansions Milton Rochester)	North
Rezoning Route 11	North
Multi municipal agreements (Ex. Utilities along Route 11 Farmington/Rochester)	North
Growing downtowns and regional gentrification (Rochester, Farmington, Milton)	North
Higher minimum wage	North
Pursing 79-E	North
Pursuing Farm TIF	North
Will Milton add sewer/water connections to the Three Ponds area?	North
Sewer proximity to lakes is a concern	North
Mixed residential/commercial opportunities abutting Durham	South
Housing near recreations opportunities – create more trails to begin with	South
Rural character/village aesthetic	South
Cluster design	South
Conversion of old farmhouses to multifamily	South
Condo opportunities	South
More open facing communications, less planner jargon (subsidized vs affordable, different types of zoning, etc)	South
Addressing stigma, encourage multi generational arrangements	South
Community building	South
Interstate compacts – Maine & NH (The Berwicks vs Tri Cities commutershare)	South
Addressing older millennial demand (30s) in Somersworth	South
Barrington smart development on 9/125 corridors, particularly for commercial;	South
Portsmouth was “gentrified” in the 70’s and 80’s, now Dover, Rochester is starting to see some of the same, it is inevitable that that same residential and community growth will push northward to Milton and Farmington where there are water and sewer	North
Need water and sewer to realize cost savings needed to create more dense development	North
Communities will need to start adapting and adjusting to development pressure, need to plan for water and sewer expansion and possible interconnections (EX. Milton is not a big load, could possibly connect to Rochester or Farmington’s water treatment facilities)	North
Milton is seeing about a 30% increase in the number of new residents (from vehicle registrations), even though the population hasn’t changed per census	North
Municipalities should be thinking about maximizing density of new units in order to keep new rents low and affordable (4 units @ \$1,200 = \$4,800 and 6 units @ \$1,000 = \$6,000)	North
Concepts, for the community where they fit	North
NOT – class VI and private roads that are now town roads by a vote of town meeting, addressing what the development implications may be from these “new” town roads (Emergency services on camp roads for homes being converted to year round use)	North
Multifamily conversion of large existing structures such as large farmhouses that could become 3-6 units	North
Transfer of Development Rights to tie conservation with increased development elsewhere	North

Notes

Map

Open space development – use open space to buffer visual impact of the development, look like the little hamlet in the distance, maintain green streetscape	North
Allow residential in commercial development	North
Restrictions of only 1 primary residential structure/lot is a barrier	North
Enable infill of missing middle housing	North
One of Durham's wells is in Lee, Madbury has an intake for Portsmouth, infrastructure for adjoining communities – opportunity to discuss regional collaboration and expansion within the water supply host community	North
Many are receptive to Dover's zoning style regardless of population density	North
Interest in transferable bonuses (However, does TDR work if no one is buying?)	North
How to define "rural character"? (Is it that large lots should only have one unit/one family, or just maintain the appearance of one unit/one family?)	North

KEY POINTS

Exploring agreement between adjacent communities to support sewer/water expansion and infrastructure

Addressing stigma and jargon

Gentrification concerns

Balance with rural, i.e. open space developments

There is demand and development pressure

How can SRPC help? What needs to be included in final RHNA? What would be useful as part of a housing toolkit?
What is useful for investors? What materials can be prepared for them? How to utilize site visits and how to present to out of state investment (county vs town-level management in New England, what is an RPC – who's
What incentives exist for out of region investment? Personal touch at the local level vs BEA/other NH resources
"How to" for TDR, density bonuses - Presentation of success stories
Personal examples, both hypothetical and real life examples
COVID impacts – in-migration, local job losses, childcare needs (oMay still be waiting on data from various sources
, Work from home crowd, Shrinking commercial need)
Getting in touch with realtors, local businesses
Analysis of lease turnover
SRPC RHNA Snapshot and statewide RHNA dashboard from state consultant
QoL and compatibility with current regs
Orienting final RHNA for municipalities to transition into HOP grant process
RPC facilitation of sharing housing navigators among towns
Investment in water and sewer expansion/ more capacity
79-E taxation program, developer invest into the building and the town hold off on the tax value (Example in Milton Mills, Partnership with the town to keep the property value for x years, Two more interested applicants in MIL, Conversation – we will agree to offer you this incentive, but participate in a conversation about the rents
Highlight conservation subdivision model ordinance as a function of ODP
State mandating that every community has to have a conservation subdivision ordinance by a certain year (i.e. 2025) in response to communities wanting to be rural (Maintain conservation by the small clusters of housing
TOOLKIT should address developers in ensuring that what is being proposed would work/be implementable)
Zoning changes to account for square footage of open space (Tiny homes that are connected
Instead of units per acre, square footage per unit)
Pushing out the rural with less commuting (changed with COVID)
Importance of infrastructure including cell service and broadband
Mandating ADU was successful, mandate that 20% land of zoned residential have to contain detached units
(Bump ownership occupancy requirement (eliminate))
Verbiage can influence – cluster subdivision vs. conservation subdivision vs. open space subdivision
TOOLKIT Add one pagers to support rationale behind planning decision with housing (Example persons per household, children (audience – board members to start, and the all relevant parties as they come in)
To get to your vision, this is what you would need, types of housing, commercial, etc.)
Regional study of water and sewer capabilities – how we can partner with services regionally
Square footage/unit caps rather than acreage caps

KEY POINTS

Materials that we can provide to potential developers
RPC assisting via final RHNA, HOP and housing navigators
Conservation subdivision ordinance model and mandate
Infrastructure investment, also including cell and broadband
Regional study of sewer and water capabilities, how we can partner regionally

Condo in Rochester with elevator

Lower end mobile home 345 fee

Best option was to rent – Northgate would be the most affordable option in the area with all utilities includes CAP clientele many seeing a 500/month increase in rents recently. Lowest income households have no options other than subsidized housing.

Capacity, with rents going up, more people seeking shelter

Nashua shelter is only year-round low barrier shelter

Local welfare provides services to anyone that has been in the community for 30+ days

Supportive housing – surround people with the supports they need, more cost effective approach

Dover and Rochester now has a social worker that goes out with police to assist when there are mental health issues

NHHFA's rental cost survey – vacancy rate down to 0.5% and even the surrounding states are in the same situation, doesn't even factor in costs

Estimating at the state level that we need another 20-30k housing units

Anything that increase supply is good – single family, duplex, higher density

Newington Mall is a great opportunity for redevelopment

Dover has said we need 1,200 units yesterday, developers have said given land costs they can't make the numbers work for lower cost housing, have added density bonuses...

Boston has a requirement that all new developments have a percentage of affordable units

Affordability restrictions – how do you ensure long term affordability

Municipalities need to fund the COAST bus – we need to extend the hours, but costs to run to Portsmouth are high with multiple tolls.

Long term affordability requires volume

No first floor apartments in the Bradley Commons building

Rules need to be flexible for low income housing otherwise it isn't feasible to build and meet the funding requirements

Low income households can't afford a car, have to rent on the COAST route

Capacity is a major issue. There isn't any more room. This is almost statewide.

Only one low barrier shelter in NH in Nashua

Are they local? Hard to know.

Locals in houses complain about un-housed individuals – need to fight the stigma

DOV and ROC – PD has social worker that goes out with the PD when homeless people are reported

Healthy rental market is 5% vacancy. We're under 1%. MA is almost 3%

Even if you make enough to afford rent, there isn't anything to rent

If we are going to keep population growth going, we need more housing

In the mid-70s decided to make Pease an employment center, need a similar decision for housing

developers don't build low income housing because they lose money. Land and materials are too expensive

Boston requires a certain % of all new multi-family

development to be affordable (Need to guarantee affordability

No political connection between the need for workers and the need for housing

Fund COAST to run night route to FAR and ROC for night shift

DOV developers keep finding loop holes to get out of affordable units

Bradley Commons – can't have 1st floor apts.

Towns grant variances/waivers all over

The communities are supportive of COAST, but the state could provide more. COAST's slice of DOT funding covers about 3 ½ days of operations each year

Workers won't relocate here because we don't have transit options

Smaller towns don't have full time welfare staff, so more strain on the cities. If there was a regional welfare system to support, that would help. Years ago it was county level welfare, and got moved back to towns and the county took nursing homes.

Question – what things WORK? Is anything tracked? Can we identify the things that work and fund improvements there (For a lot of people who have had unpredicted issues (illness, car issue, etc) – short term assistance from welfare helps

For people who have been evicted, convicted, etc., it becomes harder to get them back into housing)

Proposal in front of goffer to use funding for case workers to help (ERAP)

A lot of the programs are challenging to navigate. Having case workers to help can make a huge difference

We are gentrifying

Decades of generational poverty. Families are getting priced out

Some rent listings require income $\geq 3x$ the rent

Are these problems everywhere? We're shifting people north. Lower income families are getting forced north where there are less services. Any decrease in housing cost is replaced by transportation costs or decreased wages

Issues unique to NH? All the same in Maine

Workforce projects get shot down because of nimbys

Key Points

As rent increase, which they are - more people are seeking shelter

Developers feel like they can't make affordable housing work for them - so then we do we do, density bonuses, etc

How public transportation plays in for low-income housing and those that can't afford cars

Issues with smaller towns providing welfare when they don't have the monetary resources

We need more support services and shelters, more transportation

Fighting the poverty/homelessness stigma

People are getting priced out, gentrification is happening, and there are then no options for them

Thinking about barriers: Somersworth has an application before the PB for a multiunit apt dwelling 1-2 bedroom units in an infill part of the city which is one of the first like that, applicant is hearing a lot of pushback on parking (only allowing one space per unit right now) developer has offered a design with a lower-level garage for this. Second issue is navigating historic preservation rules-this development is associated with historic district and may be issues with teardowns

Opportunities Discussion

Dover: ADUs, transfer of development rights, planning staff/city council/PB have been using tri city homelessness plan to evaluate projects and housing stocks, city council's goals also surround being diverse and attainable/associated with housing

Opportunities Discussion

Property tax, energy costs, and other carrying cost burdens limit renters, impact the affordability of housing. To make housing more affordable we have to make carrying costs more affordable

Opportunities Discussion

Needs-workforce housing, moderate income, barriers are conservation concerns, student housing vs workforce, and zoning

Opportunities Discussion

We're so short on buildings, we need to incentivize developers, no problem getting people into apts or houses, its not an issue of whether or not people wont come because its expensive, the challenge is incentivizing developers to include more affordable housing, Dover has done this-zoning in CBDs allowing people to build an extra story or two as long as a certain percentage are at the HUD rates(not allowed by right). Density is a tool that towns have, density bonuses need to be provided (Not possible for towns without water and sewer infrastructure-this is a place to invest)

Focused in on the idea of conservation land purchase for conservation subdivision: 200k for land purchase, 300k for neighborhood development, 50k for regulatory framework to support town planning, incorporate arts/culture/community events-50k, infrastructure 300k because its unknown, rest to public safety to support conservation subdivision

KEY POINTS

There needs to be a variety of housing options

Capacity is a major issue. There isn't any more room. This is almost statewide.

Only one low barrier shelter in NH in Nashua

Are they local? Hard to know.

Locals in houses complain about un-housed individuals – need to fight the stigma

DOV and ROC – PD has social worker that goes out with the PD when homeless people are reported

Healthy rental market is 5% vacancy. We're under 1%. MA is almost 3%

Even if you make enough to afford rent, there isn't anything to rent

If we are going to keep population growth going, we need more housing

In the mid-70s decided to make Pease an employment center, need a similar decision for housing

developers don't build low income housing because they lose money. Land and materials are too expensive

Boston requires a certain % of all new multi-family

development to be affordable (Need to guarantee affordability

No political connection between the need for workers and the need for housing

Fund COAST to run night route to FAR and ROC for night shift

DOV developers keep finding loop holes to get out of affordable units

Bradley Commons – can't have 1st floor apts.

Towns grant variances/waivers all over

The communities are supportive of COAST, but the state could provide more. COAST's slice of DOT funding covers about 3 ½ days of operations each year

Workers won't relocate here because we don't have transit options

Smaller towns don't have full time welfare staff, so more strain on the cities. If there was a regional welfare system to support, that would help. Years ago it was county level welfare, and got moved back to towns and the county took nursing homes.

Question – what things WORK? Is anything tracked? Can we identify the things that work and fund improvements there (For a lot of people who have had unpredicted issues (illness, car issue, etc) – short term assistance from welfare helps

For people who have been evicted, convicted, etc., it becomes harder to get them back into housing)

Proposal in front of goffer to use funding for case workers to help (ERAP)

A lot of the programs are challenging to navigate. Having case workers to help can make a huge difference

We are gentrifying

Decades of generational poverty. Families are getting priced out

Some rent listings require income $\geq 3x$ the rent

Are these problems everywhere? We're shifting people north. Lower income families are getting forced north where there are less services. Any decrease in housing cost is replaced by transportation costs or decreased wages

Issues unique to NH? All the same in Maine

Workforce projects get shot down because of nimbys

Key Points

As rent increase, which they are - more people are seeking shelter

Developers feel like they can't make affordable housing work for them - so then we do we do, density bonuses, etc

How public transportation plays in for low-income housing and those that can't afford cars

Issues with smaller towns providing welfare when they don't have the monetary resources

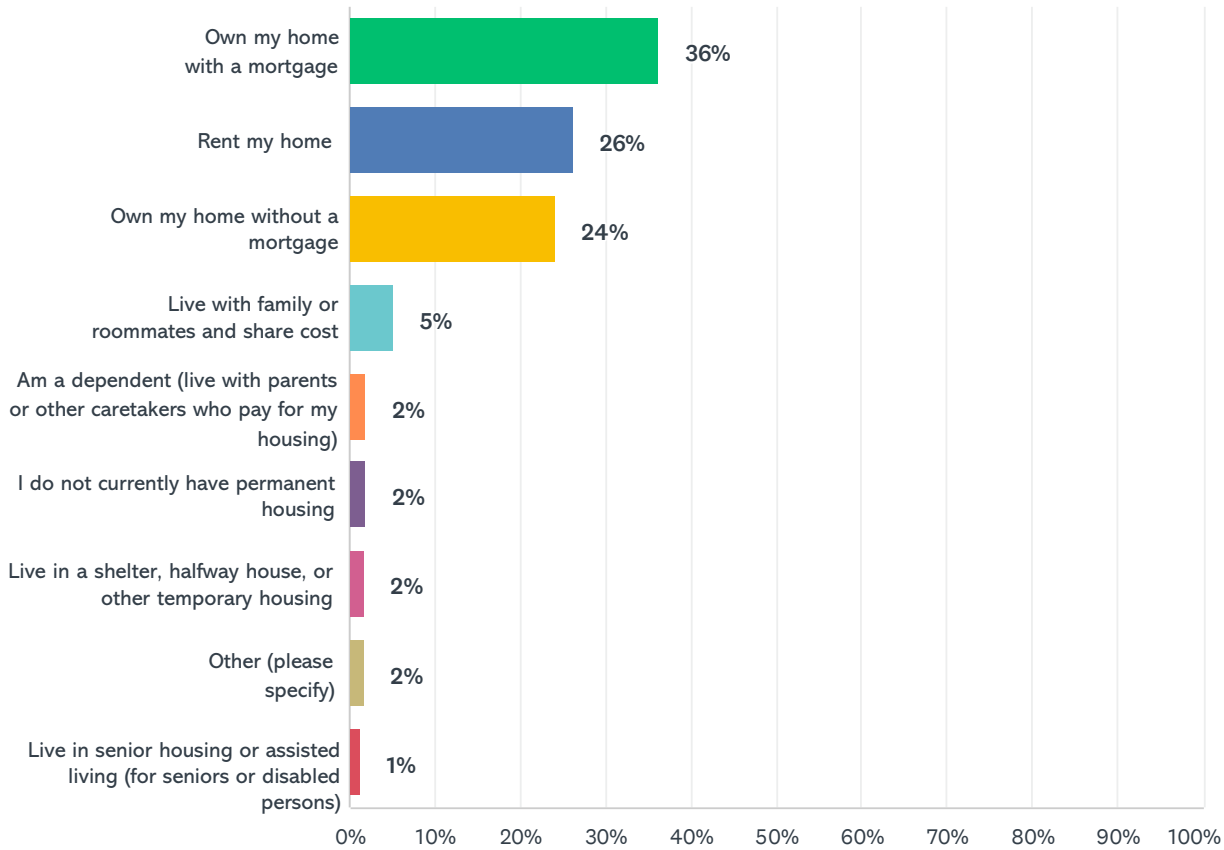

We need more support services and shelters, more transportation

Fighting the poverty/homelessness stigma

People are getting priced out, gentrification is happening, and there are then no options for them

181	Married the owner	3/15/2022 5:07 PM
182	In 2014 I got a job in Dover and needed to find housing for 2 teenagers and myself and a dog. We had a very difficult time finding housing that was affordable, in a safe neighborhood, and would allow the dog. I've been renting there ever since, mainly because it allows me to walk to work, and allows the dog. One child is out of the house so I could downsize to a 2 bedroom and maybe pay less. But again, having a dog limits my options severely. As I age I'm experiencing more mobility issues due to arthritis. My current apartment has pretty steep stairs that can be challenging for me at times.	3/15/2022 4:31 PM

219	My ex-husband and I owed a condo in downtown Dover we and we were ready to start a family in the next few years. The condo was too small for a baby/children, the cost of living went up, and we couldn't afford anything in Dover anymore. So we moved to Somersworth because it was the last city people were moving to and it was more affordable at the time. We bought a fixer upper with major issues to get a mortgage that was reasonable. This house is a money-pit and wasn't worth the price. I regret leaving my condo, which was a foreclosure when I bought it (which helped me afford it).	3/10/2022 4:01 PM

254	Only thing we could afford	3/2/2022 9:11 AM
255	death of spouse	3/2/2022 9:08 AM
256	I am a single mom of 2 kids. I grew up in Maine but moved to New Hampshire in September of 2021 because of the housing crisis and the pandemic. I have perfect credit, a stable career, and purchased and sold my first home in Maine over a year ago (home was purchased as a starter). I have enough funds saved for a down payment on a second, more permanent home, but with the prices of homes increasing drastically I can no longer afford a single family home. New Hampshire also has much higher taxes than Maine does so that is another challenge. My maximum for purchasing a home is \$280,000 and that no longer exists. I cannot even afford condos at that price because most have large monthly association fees that make the monthly payments no longer affordable. The school system is the most important factor for where I live but towns with better school systems are out of reach. We are currently renting a tiny 600 sq foot apartment for the 3 of us to stay in Newmarket but it does not meet our current needs.	3/2/2022 9:00 AM

286	More housing	2/25/2022 4:11 PM
287	Housing costs, not housing availability is the bigger issue. All the new housing being built is overpriced, particularly rent levels. Until the US and World economy isn't centralized on realstate, I fear housing costs will always be higher than they should. That said, I'd support finding ways to cap housing/rental costs at a reasonable rate.	2/25/2022 1:30 PM

301	I think we need to look at ways to convert McMansions into multi-family housing. This is the stock that stays on the market the longest because it's too expensive for average buyers but has amenities (yard space) that could appeal to young families. For young professionals and empty nesters, we continue to need more small house and condo options. Attached and detached ADUs should be allowed by right.	2/23/2022 11:30 AM

30	There is no elderly / assisted living housing. The center of town contains buildings that could be repurposed or replaced, including an old mill. Low income housing mostly is accomodated by mobile homes on self-owned lots. Housing for the truly unhoused does not exist, and perhaps should not, as there are minimal facilities in town.	6/2/2022 11:13 AM
31	Moderate income rentals	6/2/2022 9:55 AM
32	Moderate income options. Those wishing to move into first time homes or increase home size are priced out and forced to leave community.	6/2/2022 8:50 AM
33	affordable housing especially for students, newmarket used to be a place where college students could spend their time and now with the rental prices unh is cutting the bus lines to newmarket because college students can't afford to rent here anymore	6/2/2022 8:38 AM
34	Senior / moderate income. Build in semi rural settings	6/2/2022 8:18 AM
35	Affordable, single story home!	6/2/2022 7:01 AM
36	Apartment complexes/ patio homes within public sewer system footprint	6/2/2022 6:23 AM
37	Senior housing. I don't know how seniors can afford to live here. Not sure, the town is small.	6/2/2022 5:52 AM
38	Newmarket has a serious lack of affordable 1 bedroom and studio options. This is likely due to history as a student housing sector, however as students leave Newmarket and working professionals take up residence, the demand for shared housing will go down. To support this, approving zoning for in-law units/backyard cottages/tiny houses (particularly when disguised from the view of the road) would provide opportunities for existing landowners to receive additional income, while providing a boost to single-unit housing with minimal development costs.	6/1/2022 9:24 PM

217	Higher buildings build along the water but don't block the view from Rochester Hill And don't put in ugly building they must be at least as beautiful as our current/historic Rochester quality to continue to accent the majestic Rochester atmosphere. We can get building ideas like what's in Old town Gdansk Poland or Old town Talin Estonia If we build it the community will fill it	3/2/2022 1:33 PM
218	I think we are largely out of suitable space to build in town, but we could revamp our policies to help people stay in their homes & to allow for multi generational housing better. This means families can share costs & connection & less units will need to be built.	3/2/2022 12:00 PM
219	Affordable single family homes that first time home buyers can afford. Prices are so high (which is great for us existing homeowners, but not for those looking to buy) that many young families cannot afford to live in town because it is out of reach financially. 260	Dover, Rochester and Somersworth should feel proud of the housing they have provided to some of the most needy of citizens. Trying using a voucher or finding places to live in some town southward of the tri-city area. For example, can you believe they haven't built 1 apartment building in Newington, a town that is in an ultimate commuter location at the intersection of 2 major highways? No need to build more buildings, we need to look at existing resources and re-purpose them to meet the demands for affordable, green, community oriented housing. There is enough square footage of current construction which should be used more effectively to house people. We should be looking at ADUs and other means of extending living space.	2/17/2022 12:26 PM

24	I don't think that Newmarket needs anymore "high end" apartments. Many students have previously lived here and have been out priced by housing, which is evidenced by UNH deciding to end wildcat transit to newmarket	6/2/2022 7:18 PM

28	high rise apartment buildings	6/2/2022 1:47 PM
29	Anything large is inappropriate. This is a small town that wants to stay that way, and is physically ill-suited to large scale development. Large multifamily units or anything that resembles a hard-urban core would not be welcome and would pose environmental issues due to limited town septic and water services and lack of waste pickup. The town core is sandwiched between a river and a mountain and is traffic-limited and has runoff issues which would be exacerbated by development and additional impervious surfaces. One or two-story apartment buildings would likely work if in small numbers.	6/2/2022 11:13 AM

I don't believe there is a need for more of these types of developments because of the municipal cost especially for schools and police. The state should help subsidize low income housing and there should be building standards so that people don't have to live in crowded, poorly constructed homes.	6/1/2022 1:22 PM

29	I would like to but it is difficult to buy with these high mortgage prices! I'm preapproved and I've owned two homes before so I refuse to pay these ridiculous prices for the homes that are not worth the asking prices. I understand people are buying them but they are people moving up here with more disposable income, probably from the sale of their homes in MA.	6/2/2022 4:04 PM

31	Yes	6/2/2022 2:27 PM
32	If we can afford to stay in the area, we would like to. Cost of living is so high	6/2/2022 2:00 PM
33	probably not especially if taxes keep going up	6/2/2022 1:47 PM
34	Our home is a very hard-weather site with difficult access which will be difficult to maintain when physically infirm. We will stay as long as possible unless external conditions (such as development) drives us out.	6/2/2022 11:13 AM

42	I enjoy Newmarket, and would like to stay here if a more affordable option presents itself. I do not intend to stay in this apartment due to prohibitive cost (\$1300/mo for a 500sq ft 1bd with mediocre improvements and several oversights during prior renovations)	6/1/2022 9:24 PM
43	My home no, but considering I just moved my children here this fall I would like to be able to keep them in their current school without needing to go through another change. It's just not affordable at the moment.	6/1/2022 8:30 PM
44	My apartment is literally uninhabitable but we can't afford to move or fix the mold	6/1/2022 8:14 PM
45	Hard to say. At this point there is not much holding me here. We need to bring in businesses and build the bridge which is conducive to all boat traffic going underneath or the town will lose in the long run.	6/1/2022 7:20 PM
46	At the present time, our plans are to stay within our community on a permanent basis.	6/1/2022 7:19 PM

87	For the year long lease, and then it totally depends on the market. If the market is the same, we will stay another year	5/14/2022 4:55 PM
88	I am hoping to start a family. Doing so long term in our small apartment would be unfeasible.	5/13/2022 10:11 PM
89	For the foreseeable future	5/12/2022 8:38 PM
90	I want to stay in Newmarket	5/12/2022 4:55 PM
91	No. We have found that it's not safe to walk near our house due to traffic speed and lack of sidewalks.	5/11/2022 10:36 AM

111	Would like to stay in town long-term, do not want to rent indefinitely	4/20/2022 8:46 PM
112	No...we will be selling and hope to find affordable smaller house for us	4/20/2022 8:43 PM
113	I'd stay just about anywhere permanently if I could get a loan for a mortgage. I'm paying more for rent per month than most of the people I know for their own homes. How crazy is that? And it's an 800 sq. ft. Apartment. It's demoralizing to me.	4/20/2022 7:38 PM
114	Somewhat close by for family. But I'd like to be more rural	4/20/2022 7:37 PM
115	Not in my current apt. I would like to stay in Newmarket, or at least between Newmarket and the coast, but financially I just don't think that's possible.	4/20/2022 7:27 PM

199	I would like to but will probably not be able to afford it. I would like to live in a place like Riverwoods but cannot afford it. My sister had been at Riverwoods in Exeter for 10 years and I am her medical Power of Attorney. But you need a house to sell for down payment and then a good sized income after that. BUT living there gives you the safety of knowing you will have good care for the rest of your life.	3/15/2022 3:18 PM

15	A larger role to expand the town and employment. Lose the vacation mentality.	6/12/2022 10:06 AM
16	The state should work with the towns by asking the people in the town what is needed. Currently, the town management focuses on getting businesses into the town, and higher end condos, etc, but there are people in my building that are 90-100 years old who have been in this town all their lives and have been forgotten by the town.	6/10/2022 2:27 PM

35	Local government should ensure affordable housing options are available considering the cost of living (food/gas/etc) and the full scale of wages, not just average income, for the area. Minimum wage workers need to live in every community, and those communities must also provide them a place to live.	6/1/2022 9:24 PM
36	Government can't do anything but keep taxes lower and lower interest rates	6/1/2022 8:14 PM
37	They need to do more to get rid of vacant houses and get them sold for revenue and not have empty buildings/houses which are an open invitation to create more problem in town.	6/1/2022 7:20 PM
38	I believe that local government, as well as county, and state need to help with the town's infrastructure to encourage business growth within Milton and Milton Mills to help offset rising property taxes. 69	I'd love to see towns find some way to keep existing residents from being priced out of their homes while allowing new people to move to communities. NH House Rep Ellen Read had a bipartisan bill that allowed localities to implement a more progressive property tax that would have accomplished this, but I believe it got tabled (for now). Also preserving nature while building more dense housing. That is the key! NH is great because of its nature.	5/20/2022 12:53 PM

72	Our planning board tries to keep the rural character of the town. At one point the conservation commission was trying to create a concept of villages within town. It hasn't been realized. You have to drive to get everywhere. It's too bad because the post office, town hall, and library and quite near each other but there is no land to do a townhouse type development.	5/20/2022 10:02 AM

community and region. Looking for opportunities to reduce barriers to affordable housing like lot size and frontage requirements, creative cluster/condo developments, parking requirements, etc. Comprehensively addressing the interplay of housing and transportation.

79	Strong role in providing affordable housing	5/2/2022 4:45 PM
80	Leaving it to the market is not working. Local, county and state government should each play a role in ensuring everyone has a safe, decent place to live that meets their needs - whether physical, financial, or other.	4/29/2022 2:47 PM
81	I have no idea.	4/28/2022 2:11 PM
82	Local government should do all it can to insure it's citizens have access to safe and affordable housing and access to social services	4/28/2022 11:53 AM
83	Friendliness to multi-use, mixed housing for developers and residents. Lack of red tape and help for folks trying to expand any kind of housing	4/27/2022 4:33 PM
84	They should be subsidizing building more affordable housing options especially for public servants. Firefighter/police/teacher housing vouchers or home loan programs are desperately needed. As a younger teacher I can tell you many of us would like to but but simply can't afford to anymore when houses are selling for cash offers of 300-400k	4/24/2022 9:21 AM
85	I think government is doing what it should: increasingly protect people from discrimination in housing. Our predicament is not one to be solved by regulations or legislation.	4/22/2022 11:26 PM
86	I think government is the only way we can make the housing market fair again.	4/22/2022 9:10 PM
87	They should actually do something about it and change zoning laws and disregard the high end housing occupants that constantly shoot down every opportunity to build houses that could house the Majority that don't own a home. Some eager home owners as of today weren't old enough even 4 years ago to purchase a home.	4/21/2022 10:07 PM
88	I believe Newmarket has paid its dues in the low and medium Income market. We have an abundance of condo and multi families, at least 2 mobile home parks, 2-3 elderly housing projects, and many medium income residential neighborhoods. We worked hard as a community to pull our town out of the low income bracket only of housing, by encouraging some higher priced development for balance. Taxpayers committed financially to the downtown redevelopment and now that all of these long term investments are done everybody wants to move here and are upset that the inventory is limited. We worked toward a balance and I believe we have achieved it. You cannot please everyone, nor do I believe we should aim for that. It is time for some other communities to absorb some of the low and medium housing needs. We have contributed more than our fair share.	4/21/2022 12:37 PM

95	Why are we building such large homes?	4/20/2022 8:43 PM
96	Regulations on rent increases would certainly be a good start. Free enterprise is one thing, but 65% increase on your largest bill is really hard. When there's nothing there to stop the greed it's abhorrent.	4/20/2022 7:38 PM
97	There should be some kind of housing cap on how much rents can be raised by landlords	4/20/2022 7:37 PM
98	A large role as they know the local constituents better than state or federal government.	4/20/2022 7:27 PM
99	They need to be involved and be part of the solution They need to think outside the box and to cut thru red tape	4/20/2022 6:57 PM

TDR's, deferred tax payments and leasing city property so that developers can have enough parking for their new tenants. If they had stuck by the rules we had in place we would not have as much development. Every new project seems to need a 'zoning adjustment'. Why bother with rules when they can just be bent by a government board. No should mean no. Not just a few thousand feet here and a few thousand feet there exceptions for each development. Wetlands have been chewed away with each new development. So, no. Government should not get more involved. Always a mistake.

65	While disabled but not on disability, as a "housewife," we were always on the edge of housing disaster. We always paid rent late until a short period when anyone could get a mortgage coincided with my ex-husband getting a good-paying [REDACTED] job, we got a house. Then he lost the job and we were always late on our mortgage. [REDACTED] bought out his company and moved him [REDACTED]. He divorced me and didn't pay the mortgage as promised, and I/we lost the house. I had to go on disability and get subsidised housing - a 1 br apt. Now that rent has gone sky-high, our landlords are upgrading the building and raising rent. My rent is capped. It's only a matter of time before they decide they want that extra \$400/mo they could probably get for this place renovated and kick me out. Then I will become homeless. They kicked out my downstairs neighbors, are renovating the apt, and my neighbors are now homeless. I live in fear every day of becoming homeless, because HUD won't pay what apts. are worth nowadays. There is NOTHING available outside a slum or the projects in other towns that is in my price range and will take Section 8 (and will take pets.)	5/26/2022 6:46 PM

77	Never had a home of my own. Been living in poverty for 14 years and can't afford to stay in NH. Rent has been covered by [REDACTED] controlling me financially all this time and I'm grateful for that even though it's made life even harder. I would love to afford my own expenses and cost of living and have been fighting tooth and nail for that for 14 years. Became disabled due to it. Five jobs at the same time for two years isn't enough money to live on. That's why I have been at risk for eviction, if my relatives stopped paying I would be homeless. 83	No, but I was a single mom who almost became homeless. My mom lived in an age restricted mobile home park. I came home to NH to help her when my dad died. I had a 5 month old baby at the time and the landlord told my mom she was going to be evicted unless I left. I was able to get a Section 8 voucher which was a lifeline and a huge part of getting on my feet, finishing my degree, and later becoming a homeowner with a USDA rural development loan.	5/20/2022 10:02 AM

I couldn't find an apartment anywhere. I had no place to go & became homeless. I think the people making decisions on affordable housing are out of touch with income reality and always disregard single older adults. This needs to stop! We are left out in the cold. There are no options for us. No services, no help whatsoever! The reality for us is very real. My reality is that I will have to work until I die & this is the USA??? Shameful & sad.	3/5/2022 3:36 PM
